

U.S. Energy Information
Administration

John Conti

Assistant Administrator for Energy Analysis

Duties

John Conti is the Assistant Administrator for Energy Analysis. The Assistant Administrator for Energy Analysis analyzes energy supply, demand, and prices including the impact of financial markets on energy markets; prepares reports on current and future energy use; analyzes the impact of energy policies; and develops advanced techniques for conducting energy information analyses. John also oversees the planning and execution of EIA's analysis and forecasting programs to ensure that EIA models, analyses, and projections meet the highest standards of relevance, reliability, and timeliness.

Biography

Previously, John was the Division Director for the International, Economic and Greenhouse Gases Division of OIAF, where he was responsible for EIA's greenhouse gas program, macroeconomic forecasts and analyses, and international energy projections and analyses. Most recently, John was the director of the Office of Integrated Analysis and Forecasting (OIAF), a post he held since December 2004.

Between 1992 and 2002, John worked in the Department of Energy's Office of Policy and International Affairs, where he worked on a number of energy policies issues, including various National Energy Plans, greenhouse gas mitigation plans, and restructuring of the electric power industry. John served in various roles, including operations research analyst; Deputy Director, Office of Economic Analysis and Competition; and Acting Director, Office of Electricity and Natural Gas Analysis.

From September 1980 to 1992, John worked for EIA in the Offices of Energy Markets and End Use; Oil and Gas; and Coal, Nuclear, Electric and Alternative Fuels, focusing on economic analysis of the refinery and electric power sectors and integrated forecasting activities, including the development of EIA's National Energy Modeling System (NEMS).

John has an M.S. in management and policy sciences and a B.A. in economics from the State University of New York at Stony Brook.
