Annual Coal Distribution Report 2012

December 2013

This report was prepared by the U.S. Energy Information Administration (EIA), the statistical and analytical agency within the U.S. Department of Energy. By law, EIA's data, analyses, and forecasts are independent of approval by any other officer or employee of the United States Government. The views in this report therefore should not be construed as representing those of the Department of Energy or other Federal agencies.

Overview of Annual Coal Distribution Tables, 2012

Introduction

The Annual Coal Distribution Report (ACDR) provides detailed information on domestic coal distribution by origin state, destination state, consumer category, and method of transportation. Also provided is a summary of foreign coal distribution by coal-producing state.

The 2012 Annual Coal Distribution Report supersedes the data contained in the four Quarterly Coal Distribution Reports previously issued for 2012. This report relies on the most current data available from EIA's various monthly, quarterly and annual surveys of the coal industry and electric power generation industry. In addition, the report contains actual annual data instead of imputed data for smaller electric generation plants that are excluded from the monthly filing requirements.

Table Format and Sources

The Electric Power sector in this report includes electric utilities, independent power producers, and electric utility combined heat and power plants. Commercial combined heat and power and industrial combined heat and power plants, which also submit data on the Form EIA-923, "Power Plant Operations Report," are included in the industrial plants (excluding coke) and commercial and institutional sectors.

Coal receipts as provided in the Annual Coal Distribution Report for the electric power sector are less than the total quantities reported on Form EIA-923. During 2012, total coal receipts reported on Form EIA-923 for the electric power sector were 827,786 thousand short tons, compared with 813,251 thousand short tons for the electric power sector of the Annual Coal Distribution Report. The Annual Coal Distribution Report reflects the distribution of domestically produced coal. Therefore, coal imports from the EIA-923 survey are excluded. Other excluded categories are waste coal for the electric power sector, plus all receipts for the commercial combined heat and power and industrial combined heat and power plants.

Coal distribution to coke plants is obtained from the Form EIA-5, "Quarterly Coal Consumption and Quality Report – Coke Plants." The volume of coal distributed to coke plants excludes coal imports and is thus smaller than the volume of receipts at coke plants reported in the Quarterly Coal Report (QCR), which includes imports.

Coal distribution to industrial plants (excluding coke) is obtained from the Form EIA-3, "Quarterly Coal Consumption and Quality Report, Manufacturing and Transformation / Processing Coal Plants and Commercial and Institutional Coal Users" and Form EIA-7A, "Coal Production and Preparation Report." The Annual Coal Distribution Report volume reported for industrial plants (excluding coke) is smaller than the volume of receipts at industrial plants in the QCR to the extent that the Coal Distribution Report excludes waste coal and imports.

Beginning in 2008, the residential and commercial consuming sector was replaced by the commercial and institutional sector, which excludes the residential sector and small amounts of coal used in the transportation fuel sector (primarily tourist steam railroads). Commercial and institutional coal distribution is obtained from the Form EIA-3, "Quarterly Coal Consumption and Quality Report, Manufacturing and Transformation / Processing Coal Plants and Commercial and Institutional Coal Users" and Form EIA-7A, "Coal Production and Preparation Report."

Previously, on the EIA-6A survey, it was not possible to identify refuse or waste coal,¹ which was included in anthracite and bituminous distributions. Waste coal receipts are collected and separately identified on the Form EIA-923 and represent

¹ **Waste coal:** Usable material that is a byproduct of previous coal processing operations. Waste coal is usually composed of mixed coal, soil, and rock (mine waste). Most waste coal is burned as-is in unconventional fluidized-bed combustors. For some uses, waste coal may be partially cleaned by removing some extraneous noncombustible constituents. Examples of waste coal include fine coal, coal obtained from a refuse bank or slurry dam, anthracite culm, bituminous gob, and lignite waste.

especially significant volumes in Pennsylvania and West Virginia. The Annual Coal Distribution Report excludes waste coal and small volumes of synthetic coal that may have been distributed after all synthetic coal plants were closed.

Coal exports previously reported on the discontinued Form EIA-6A, are now obtained from the modified Form EIA-7A, "Coal Production and Preparation Report." Coal exports may differ from the volumes reported in the Quarterly Coal Report (QCR). Volumes reported in the QCR are obtained from the U.S. Census Bureau, U.S. Department of Commerce, Form EM 545, "U.S. Exports of Domestic and Foreign Merchandise." Differences arise in the results of the surveys due to differences in survey frame populations, survey errors, assumptions and definitions. Since 2010, the Annual Coal Distribution Report has added the estimates of coal exports data by brokers/traders.

Resolving Missing Data in the Form EIA-923 Records

In reporting the 2012 data, a number of respondents submitted on EIA-923 survey with a blank or null entry for origin state and a smaller number submitted without entering a transportation mode. Application of computerized algorithms and a review of past plant receipts identified some of the coal origin states and the likely method of transportation.

U.S. Domestic Coal Distribution Detailed Data Files

The 2012 Annual Coal Distribution detailed data file is a Microsoft Excel spreadsheet that provides aggregated volumes of coal by origin state, destination state, consumer type, and transportation mode. The volumes represent short tons of coal for the calendar year 2012 by each quarter.

The detailed data files and reports are available from the EIA website located at the following URL:

<http://www.eia.gov/coal/distribution/annual/>

Detailed data files and reports for previous years are available from the EIA website located at the following URL:

<http://www.eia.gov/coal/distribution/annual/archive.html>

Data for all consumer categories are for coal receipts at those plants, with one exception. Coal distributed to industrial plants includes a small amount of coal consumed by coal preparation plants. Total may not equal sum of components because of independent rounding.

Sources: Electric Power Sector: Form EIA-923, "Power Plant Operations Report;" Coke Plants: Form EIA-5, "Quarterly Coal Consumption and Quality Report - Coke Plants;" Industrial Plants (excluding Coke) and Commercial and Institutional: Form EIA-3, "Quarterly Coal Consumption and Quality Report, Manufacturing and Transformation/Processing Coal Plants and Commercial and Institutional Coal Users" and Form EIA-7A, "Coal Production and Preparation Report."

Kansas

Table OS-8. Domestic Coal Distribution, by Origin State, 2012

Origin: Kansas (thousand short tons)

Coal Destination State	Transportation Mode	Electric Power Sector	Coke Plants	Industrial Plants (excluding Coke)	Commercial & Institutional	Total
Missouri Total		4	-	-	-	4

	Railroad	8,922	-	208	-	9,130
	Truck	13,773	-	-	-	13,773

- = No data reported.

Note: Electric Power Sector in this report includes electric utilities, independent power producers, and electric utility combined heat and power plants. Data for all consumer categories are for coal receipts at those plants, with one exception. Coal distributed to industrial plants includes a small amount of coal consumed by coal preparation plants. Total may not equal sum of components because of independent rounding.

Sources: Electric Power Sector: Form EIA-923, "Power Plant Operations Report;" Coke Plants: Form EIA-5, "Quarterly Coal Consumption and Quality Report - Coke Plants;" Industrial Plants (excluding Coke) and Commercial and Institutional: Form EIA-3, "Quarterly Coal Consumption and Quality Report, Manufacturing and Transformation/Processing Coal Plants and Commercial and Institutional Coal Users" and Form EIA-7A, "Coal Production and Preparation Report."

	Tramway, Conveyor, and Slurry Pipeline	-	1,038	-	-	1,038
	Truck	1,070	-	82	1	1,153

s = Quantity is less than 500 short tons, but value is included in any associated total.

- = No data reported.

Note: Electric Power Sector in this report includes electric utilities, independent power producers, and electric utility combined heat and power plants. Data for all consumer categories are for coal receipts at those plants, with one exception. Coal distributed to industrial plants includes a small amount of coal consumed by coal preparation plants. Total may not equal sum of components because of independent rounding.

Sources: Electric Power Sector: Form EIA-923, "Power Plant Operations Report;" Coke Plants: Form EIA-5, "Quarterly Coal Consumption and Quality Report - Coke Plants;" Industrial Plants (excluding Coke) and Commercial and Institutional: Form EIA-3, "Quarterly Coal Consumption and Quality Report, Manufacturing and Transformation/Processing Coal Plants and Commercial and Institutional Coal Users" and Form EIA-7A, "Coal Production and Preparation Report."

- = No data reported.

Note: Electric Power Sector in this report includes electric utilities, independent power producers, and electric utility combined heat and power plants. Data for all consumer categories are for coal receipts at those plants, with one exception. Coal distributed to industrial plants includes a small amount of coal consumed by coal preparation plants. Total may not equal sum of components because of independent rounding.

Sources: Electric Power Sector: Form EIA-923, "Power Plant Operations Report;" Coke Plants: Form EIA-5, "Quarterly Coal Consumption and Quality Report - Coke Plants;" Industrial Plants (excluding Coke) and Commercial and Institutional: Form EIA-3, "Quarterly Coal Consumption and Quality Report, Manufacturing and Transformation/Processing Coal Plants and Commercial and Institutional Coal Users" and Form EIA-7A, "Coal Production and Preparation Report."

	Railroad	292	-	1,295	-	1,587

- = No data reported.

Note: Electric Power Sector in this report includes electric utilities, independent power producers, and electric utility combined heat and power plants. Data for all consumer categories are for coal receipts at those plants, with one exception. Coal distributed to industrial plants includes a small amount of coal consumed by coal preparation plants. Total may not equal sum of components because of independent rounding.

Sources: Electric Power Sector: Form EIA-923, "Power Plant Operations Report;" Coke Plants: Form EIA-5, "Quarterly Coal Consumption and Quality Report - Coke Plants;" Industrial Plants (excluding Coke) and Commercial and Institutional: Form EIA-3, "Quarterly Coal Consumption and Quality Report, Manufacturing and Transformation/Processing Coal Plants and Commercial and Institutional Coal Users" and Form EIA-7A, "Coal Production and Preparation Report."

	River	20,044	-	690	-	20,734
	Truck	8,977	-	255	23	9,255

s = Quantity is less than 500 short tons, but value is included in any associated total.

- = No data reported.

Note: Electric Power Sector in this report includes electric utilities, independent power producers, and electric utility combined heat and power plants. Data for all consumer categories are for coal receipts at those plants, with one exception. Coal distributed to industrial plants includes a small amount of coal consumed by coal preparation plants. Total may not equal sum of components because of independent rounding.

Sources: Electric Power Sector: Form EIA-923, "Power Plant Operations Report;" Coke Plants: Form EIA-5, "Quarterly Coal Consumption and Quality Report - Coke Plants;" Industrial Plants (excluding Coke) and Commercial and Institutional: Form EIA-3, "Quarterly Coal Consumption and Quality Report, Manufacturing and Transformation/Processing Coal Plants and Commercial and Institutional Coal Users" and Form EIA-7A, "Coal Production and Preparation Report."

s = Quantity is less than 500 short tons, but value is included in any associated total.

- = No data reported.

Note: Electric Power Sector in this report includes electric utilities, independent power producers, and electric utility combined heat and power plants. Data for all consumer categories are for coal receipts at those plants, with one exception. Coal distributed to industrial plants includes a small amount of coal consumed by coal preparation plants. Total may not equal sum of components because of independent rounding.

Sources: Electric Power Sector: Form EIA-923, "Power Plant Operations Report;" Coke Plants: Form EIA-5, "Quarterly Coal Consumption and Quality Report - Coke Plants;" Industrial Plants (excluding Coke) and Commercial and Institutional: Form EIA-3, "Quarterly Coal Consumption and Quality Report, Manufacturing and Transformation/Processing Coal Plants and Commercial and Institutional Coal Users" and Form EIA-7A, "Coal Production and Preparation Report."

Coal Origin State	Transportation Mode	Electric Power Sector	Coke Plants	Industrial Plants (excluding Coke)	Commercial & Institutional	Total
	River	-	-	58	5	63
	Truck	-	-	14	-	14

s = Quantity is less than 500 short tons, but value is included in any associated total.

- = No data reported.

Note: Electric Power Sector in this report includes electric utilities, independent power producers, and electric utility combined heat and power plants. Data for all consumer categories are for coal receipts at those plants, with one exception. Coal distributed to industrial plants includes a small amount of coal consumed by coal preparation plants. Total may not equal sum of components because of independent rounding.

Sources: Electric Power Sector: Form EIA-923, "Power Plant Operations Report;" Coke Plants: Form EIA-5, "Quarterly Coal Consumption and Quality Report - Coke Plants;" Industrial Plants (excluding Coke) and Commercial and Institutional: Form EIA-3, "Quarterly Coal Consumption and Quality Report, Manufacturing and Transformation/Processing Coal Plants and Commercial and Institutional Coal Users" and Form EIA-7A, "Coal Production and Preparation Report."
