Refinery Gases
- Pentanes Plus                         28
- Liquefied Petroleum Gases            227
- Ethane/Ethylene                      73
- Propane/Propylene                    107
- Normal Butane/Butylene              32
- Isobutane/isobutylene               16

Other Liquids
- 30                                        | 527               | 1,645                             | 323                       | 1               | 2,476         | 36           | 12             | -               | -       | -                 |

Other Hydrocarbons
- Hydrogen/Oxygenates/Renewables/Other Hydrocarbons
- Oxygenates (excluding Fuel Ethanol)
- Renewable Fuels (including Fuel Ethanol)
- Fuel Ethanol
- Renewable Fuels Except Fuel Ethanol
- Other Hydrocarbons
- Aviation Gasoline Blend. Comp.

Finished Petroleum Products
- 3,609                                    | 554               | 1,672                             | -318                      | -18            | 78            | 5,457         |

Motor Gasoline
- Reformulated                             | -                 | -                                | -                         | -              | -             | 3            | 3,201          |

Motor Gasoline Blended (MGBC)
- Refurbolated                             | -                 | -                                | -                         | -              | -             | -            | -              |

Distillate Fuel Oil
- Distillate Fuel Oil (15 ppm sulfur and under)²
- Distillate Fuel Oil (15 ppm sulfur or greater)

Residual Fuel Oil
- 46                                        | 70                | 0                                | -                         | -              | -             | 27           | 88             |

Other Fuels for Petro. Feed. Use
- Special Naphtha
- Lubricants
- Waxes

Petroleum Coke
- Marketable
- Catalyst
- Asphalt and Road Oil
- Coal Tar

Miscellaneous Products

Total                                          | 303               | 29                                | 3,644                     | 1,783          | 3,815         | -12          | -8            | 3,588           | 197     | 5,786         |

¹ = Not Applicable.
² = No Data Reported.
³ = No Available.
⁴ = Not Available.

Notes:
1. Includes an adjustment for crude oil, previously referred to as 'Unaccounted For Crude Oil.' Also included is an adjustment for motor gasoline blending components, fuel ethanol, and distillate fuel oil. See Appendix B, Note 2C for a detailed explanation of these adjustments.
2. Includes implied net receipts for fuel ethanol and oxygenates (excluding fuel ethanol). Implied net receipts are calculated as the sum of stock change, refinery and blender net inputs, and exports minus the sum of Renewable Fuels and Oxygenate Plant Net Production, Imports, and Adjustments. Includes crude oil receipts by rail.
3. A negative number indicates a decrease in stocks and a positive number indicates an increase in stocks.
4. A negative number indicates a decrease in stocks and a positive number indicates an increase in stocks.
5. Product supplied is equal to field production, plus renewable fuels and oxygenate plant net production, plus refinery and blender net production, plus imports, plus net receipts, plus adjustments, minus stock change, minus refinery and blender net inputs, minus exports.
6. Distillate stocks located in the 'Northeast Reserves' are excluded. For details see Appendix D.
7. Exports of distillate fuel oil with sulfur greater than 15 ppm to 500 ppm may include distillate fuel oil with sulfur content 15 ppm and under due to product detail limitations in the exports data received from the U.S. Census Bureau.
8. Total residual fuel oil ending stocks and stock change include stocks held at pipelines. Residual fuel oil ending stocks and stock change by sulfur content may not equal total residual fuel oil ending stocks and stock change. Differences in sulfur content are due to independent rounding. Domestic crude oil field production estimates are made.
