

Appendix C

Northeast Home Heating Oil Reserve

Information on the Northeast Home Heating Oil Reserve is available from the U.S. Department of Energy (DOE) Office of Petroleum Reserves web site at <http://www.fossil.energy.gov/programs/reserves/heatingoil/>.

Northeast Home Heating Oil Reserve (NEHHOR) inventories now classified as ultra-low sulfur distillate (15 parts per million) are not considered to be in the commercial sector and therefore are excluded from distillate fuel oil supply and disposition statistics in Energy Information Administration publications, such as the *Weekly Petroleum Status Report*, *Petroleum Supply Monthly*, and *This Week In Petroleum*.

Northeast Home Heating Oil Reserve (Thousand Barrels)

Terminal Operator	Location	Week Ending November 25, 2011
Hess Corp.	Groton, CT	300 *
Global Companies LLC	Revere, MA	90 *

* By December 2011, DOE will complete the conversion of the NEHHOR from high sulfur heating oil to ultra-low sulfur distillate (15 parts per million). Two companies were awarded with contracts for storage of 500 thousand barrels each. These shipments to refill the reserve will be complete by December 2011.
