Table 24. Average price of natural gas delivered to residential and commercial sector consumers by local distribution and marketers in selected states, 2022-2023

dollars per thousand cubic feet

State							Residentia 202			
	Local distribution company average price ^a	Marketer average price ^b	Combined average price ^c	Percent sold by local distribution company	Local distribution company average price ^a	Marketer average price ^b	Combined average price ^c	Percent sold by local distribution company		
Georgia New York	16.29 16.32	18.30 16.41	18.06 16.34	12.1 79.5	15.86 16.68	19.48 17.81	19.03 16.90	12.6 80.1		
Ohio	R13.88	12.90	13.07	18.0	12.74	13.86	13.67	17.0		

State				2022				Commercial 2023									
	Local distribution company average price ^a		Combined average price ^c	Percent sold by local distribution company	Local distribution company average price ^a	Marketer average price ^b	Combined average price ^c	Percent sold by local distribution company									
		Marketer average price ^b															
									Georgia	R13.35	10.87	R11.40	R21.2	11.55	10.50	10.74	22.8
									New York	11.96	9.13	10.31	41.5	11.89	8.12	9.64	40.4
									Ohio	R11.59	8.04	8.39	9.8	12.27	7.31	7.84	10.6

Source: U.S. Energy Information Administration (EIA), Form EIA-176, Annual Report of Natural and Supplemental Gas Supply and Disposition; and Form EIA-910, Monthly Natural Gas Marketer Survey.

Note: Beginning in 2011, Form EIA-910, Monthly Natural Gas Marketer Survey, was only collected in Georgia, New York, and Ohio. Prices represent the annual average retail price for volumes delivered to residential and commercial customers by marketers who report on Form EIA-910, Monthly Natural Gas Marketer Survey, and local distribution companies who report on Form EIA-176, Annual Report of Natural and Supplemental Gas Supply and Disposition. Both sets of prices include the cost of the natural gas commodity/supply and all transportation and delivery charges. Because the prices reflect each state's aggregate of multiple local distribution companies and marketers, a comparison of the aggregate prices may not represent the realized price savings that an individual customer might have obtained. Localized tariff rates, distinct contract and pricing options, and contract timing may affect the price differential between marketers and licensed distribution companies.

^a Price derived from Form EIA-176, Annual Report of Natural and Supplemental Gas Supply and Disposition.

^b Price derived from Form EIA-910, *Monthly Natural Gas Marketer Survey*.

^c Prices combined by weighting percent sold by local distribution companies versus percent sold by marketers according to volumes reported on Form EIA-176.
