^a Due to consumption weighting, the U.S. average residential price is \$34.28 per million Btu and the U.S. average commercial price is \$34.51 per million Btu.
 — = No consumption.
 Where shown, (s) = Physical unit value less than 0.5, Btu value less than 0.05, or expenditure value less than

0.05.
 Note: Totals may not equal sum of components due to independent rounding.
