### Notes:
- Data are estimates for carbon dioxide emissions from energy consumption. See “Section 12 Methodology and Sources” at end of section.
- See “Carbon Dioxide” in Glossary. See Note 1, “Emissions of Carbon Dioxide and Other Greenhouse Gases,” at end of section.
- Data exclude emissions from biomass energy consumption. See Table 12.7 and Note 2, “Accounting for Carbon Dioxide Emissions From Biomass Energy Consumption,” at end of section. Totals may not equal sum of components due to independent rounding. Geographic coverage is the 50 states and the District of Columbia.

### Web Page:
See http://www.eia.gov/totalenergy/data/monthly/#environment (Excel and CSV files) for all available annual and monthly data beginning in 1973. Sources: See end of section.
