

Domestic Uranium Production Report - Quarterly

Data for 2007
Report Date: May 13, 2008
Next Release Date: August 15, 2008

1st Quarter 2008 uranium production was 0.8 million pounds; and final 2007 total production was 4.5 million pounds in the United States

Production of uranium concentrate in the United States was 810,189 pounds uranium oxide (U₃O₈) for the first quarter 2008, 31 percent lower than the previous quarter, and 30 percent lower compared with the first quarter 2007 production. One U.S. mill (White Mesa Mill) and five U.S. in-situ-leach plants (Alta Mesa Project, Crow Butte Operation, Kingsville Dome, Smith Ranch-Highland Operation, and Vasquez) produced uranium concentrate during the first quarter 2008, the same as the end of 2007. U.S. uranium concentrate production totaled 4,533,578 pounds U₃O₈ in 2007, 10 percent higher than in 2006.

Facilities reporting for the first time:

- Lost Creek Project (owner: Lost Creek ISR LLC)
- Moore Ranch (owner: Uranium One)
- Piñon Ridge Mill (owner: Energy Fuels Resources Corporation)

All of these are currently in development, but have not yet begun producing.

P = Preliminary data.

NA = Not available.

E = Estimated data.

-- = Not applicable.

Notes: The reported 4th quarter 2002 production amount was adjusted by rounding to the nearest 100,000 pounds to avoid disclosure of individual company data. This also affects the 2002 annual production. The reported 2003 and 1st, 2nd, and 4th quarter 2004 production amounts were adjusted by rounding to the nearest 200,000 pounds to avoid disclosure of individual company data. This also affects the 2003 and 2004 annual production totals.

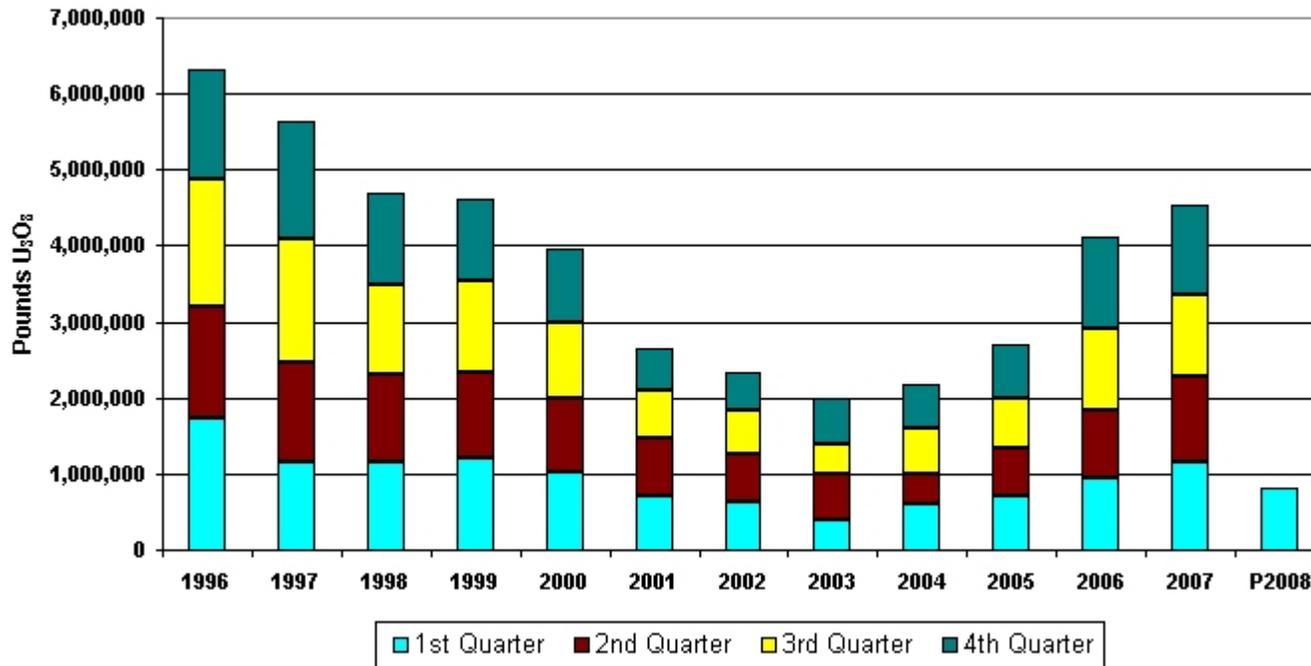

Totals may not equal sum of components because of independent rounding.

Total	9	11	9	7	6	4	3	2	3	4	6	6	6

¹ Milling uranium-bearing ore.

² Not milling ore, but producing uranium concentrate from other (non-ore) materials.

³ Not including in-situ leach plants that only produced uranium concentrate from restoration.

⁴ Uranium concentrate as a byproduct from phosphate production.

U.S. Uranium Mills by Owner, Capacity, and Operating Status

Data for 2007

Report Date: May 13, 2008

Next Release Date: August 15, 2008

Table 3. U.S. Uranium Mills by Owner, Capacity, and Operating Status

Mill Owner(s)	Mill Name	Milling Capacity (short tons of ore per day)	Operating Status at End of	
			2007	1st Quarter 2008
Cotter Corporation	Canon City Mill	400	Standby	Standby
Denison White Mesa L.L.C.	White Mesa Mill	2,000	Operating-Processing Alternate Feed	Operating-Processing Alternate Feed
Energy Fuels Resources Corp.	Piñon Ridge Mill	1,000	-	Developing
Kennecott Uranium Company/Wyoming Coal Resource Company	Sweetwater Uranium Project	3,000	Standby	Standby
Uranium One Utah, Inc.	Shootaring Canyon Uranium Mill	750	Changing License To Operational	Changing License To Operational
Total Milling Capacity:		7,150		

- = No data reported.

Note: An operating status of "operating" and "operational" usually indicates the mill was producing uranium concentrate at the end of the period.
