s = Quantity is less than 500 short tons, but value is included in any associated total.

- = No data reported.

Note: Electric Power Sector in this report includes electric utilities, independent power producers, and electric utility combined heat and power plants. Data for all consumer categories are for coal receipts at those plants, with one exception. Coal distributed to industrial plants includes a small amount of coal consumed by coal preparation plants. Total may not equal sum of components because of independent rounding.

Note: Electric Power Sector in this report includes electric utilities, independent power producers, and electric utility combined heat and power plants. Data for all consumer categories are for coal receipts at those plants, with one exception. Coal distributed to industrial plants includes a small amount of coal consumed by coal preparation plants. Total may not equal sum of components because of independent rounding.
