Table 7.8 Number of Establishments by Quantity of Purchased Electricity, Natural Gas, and Steam, 2002; Level: National Data;

Row: NAICS Codes;

Column: Supplier Sources of Purchased Electricity, Natural Gas, and Steam; Unit: Establishment Counts.

Table 7.8 Number of Establishments by Quantity of Purchased Electricity, Natural Gas, and Steam, 2002;

Level: National Data;

Row: NAICS Codes;

Column: Supplier Sources of Purchased Electricity, Natural Gas, and Steam; Unit: Establishment Counts.

			Electricity Components				Natural Gas Components				Steam Components			I
NAICS Code(a)	Subsector and Industry	Any Electricity(b)	Electricity from Only Local Utility(c)	Electricity from Only Sources Other than Local Utility(d)	Electricity from Both Local Utility and Other Sources	Any Natural Gas(b)	Natural Gas from Only Local Utility(c)	Natural Gas from Only Sources Other than Local Utility(d)	Natural Gas from Both Local Utility and Other Sources	Any Steam(b)	Steam from Only Local Utility(c)	Steam from Only Sources Other than Local Utility(d)	Steam from Both Local Utility and Other Sources	RSE Row Factors
3315	Foundries	1,715	1,621	77	17	1,582	1,054	448	80	4	W	W	0	3.9

(a) The Bureau of the Census classifies establishments using the North American Industry Classification System (NAICS).

(b) 'Any Energy Source' (that is, electricity, natural gas, steam) represents the non-duplicative total of establishments identified with this particular energy source. This count includes only those establishments that reported this activity in 1998.

(c) A 'Local Utility' is an entity that produces and/or delivers a particular energy source (for example, electricity, natural gas, steam) and is legally obligated to provide service to the general public within its franchise area.

(d) 'Sources Other than Local Utility' include independent producers, brokers, marketers, and marketing subsidiaries of utilities; for the case of electricity sources, also include small power producers and cogenerators not located at the establishment site. NF=No applicable RSE row/column factor.

* Estimate less than 0.5.

W=Withheld to avoid disclosing data for individual establishments.

Q=Withheld because Relative Standard Error is greater than 50 percent.

NA=Not available.

Notes: To obtain the RSE percentage for any table cell, multiply the cell's corresponding RSE column and RSE row factors. Totals may not equal sum of components because of independent rounding.

Purchased energy sources exclude quantities delivered from any other establishment(s) in the company, quantities transferred from other establishments of the company for which payment was not made, quantities purchased centrally within the company but separate from the reporting establishment, and quantities for which payment was made in-kind.
