(a) The Bureau of the Census classifies establishments using the North American Industry Classification System (NAICS).

NP=No applicable RSE row/column factor.

*Estimate less than 0.5.

W=Withheld to avoid disclosing data for individual establishments.

Q=Withheld because Relative Standard Error is greater than 50 percent.

NA=Not available.

Notes: Totals may not equal sum of components because of independent rounding. Operating ratios were calculated using the estimates of fuel consumption reported in Table 3.2.
