Released: February 2018 Next MECS will be fielded in 2019

 Table 8.1
 Number of Establishments by Participation in General Energy-Management Activities, 2014; Level: National Data;

Row: General Energy-Management Activities within NAICS Codes; Column: Participation and Source of Assistance; Unit: Establishment Counts.

IAICS Code(a	a) Energy-Management Activity	No Participation Pa	articipation(b)	In-house	Suppler	Product/Service Provider	Federal Program	State/Local Program	Don't Kn
		Total United States

(b) This count includes only those establishments that reported this activity in 2014. (c) One example is electrification of a subset of the manufacturing operation.

(d) Examples are interruptible rates and time-of-use rates.
 (e) Needed to manage energy use for programs such as real-time pricing.

(f) Some examples are boilers, burners, insulation, and piping.

(g) Some examples are compressors, sizing, and leak reduction.

(h) Some examples are adjustable-speed drives, motors, pumps, and fans.

(i) Facility Heating, Ventilation, and Air Conditioning '(Facility HVAC)' excludes steam and hot water.

(j) Some examples are consultation, demonstrations, engineering design, and analysis.

(k) Two examples are software and reference materials.

(I) Some examples are workshops, seminars, and presentations.

(m) Some examples are loans, tax credits, rebates, and subsidies.
* Estimate less than 0.5.
W=Withheld to avoid disclosing data for individual establishments.
Q=Withheld because Relative Standard Error is greater than 50 percent.
NA=Not available.
- Estimation is not applicable.
Notes: Totals may not equal sum of components because of independent rounding.

Energy

Released: February 2018 Next MECS will be fielded in 2019 RSE Table 8.1 Relative Standard Errors for Table 8.1; Unit: Percents.

(a) The Bureau of the Census classifies establishments using the 2012 North American Industry Classification System (NAICS). (a) The Bureau of the Census classifies establishments using the 2012 North American Industry Classifies (b) This count includes only those establishments that reported this activity in 2014.
(c) One example is electrification of a subset of the manufacturing operation.
(d) Examples are interruptible rates and time-of-use rates.
(e) Needed to manage energy use for programs such as real-time pricing.
(f) Some examples are bolies, burrers, insulation, and piping.
(g) Some examples are adjustable-speed drives, motors, pumps, and fans.
(h) Facility Heating, Ventilation, and Air Conditioning (Facility HVAC) excludes steam and hot water.
(j) Some examples are consultation, demonstrations, engineering design, and analysis.
(k) Two examples are obtaver and reference materials.
(m) Some examples are loans, tax credits, rebates, and subsidies.
* Estimate less than 0.5.

W=Withheld to avoid disclosing data for individual establishments. Q=Withheld because Relative Standard Error is greater than 50 percent.

NA-Not available. X=Not defined because RSE corresponds to a value of zero. — Estimation is not applicable. Notes: Totals may not equal sum of components because of independent rounding. Source: U.S. Energy Information Administration, Office of Energy Consumption and Efficiency Statistics, Form EIA-846, '2014 Manufacturing Energy Consumption Survey.'
