Table CE5.3a Detailed household site electricity end-use consumption, part 1—averages, 2015

Average site electricity consumption ¹ (kWh per household using the end use)												
	Space heating ²	Air handlers for heating	Air conditioning	Air handlers for cooling	Evaporative coolers	Ceiling fans	Dehumidifiers	Humidifiers	Water heating	Clothes washers	Clothes dryers	Lighting
All homes	3,242	223	2,084	130	1,201	285	950	327	3,140	59	776	1,105

¹Electricity consumption from on-site solar photovoltaic generation (i.e., solar panels) is included. Small amounts of standby power for devices that some households have but do not use (e.g., dishwasher) are not included.

²Includes main (primary) and secondary space heating.

³Housing units are classified using criteria created by the U.S. Census Bureau based on 2010 Census data. Urbanized areas are densely settled groupings of blocks or tracts with 50,000 or more people. Urban clusters have at least 2,500 but less than 50,000 people. All other areas are rural.

⁴These climate regions were created by the Building America program, sponsored by the U.S. Department of Energy's Office of Energy Efficiency and Renewable Energy (EERE).

⁵Rented includes households that occupy their primary housing units without paying rent.

⁶Total square footage includes all basements, finished or conditioned (heated or cooled) areas of attics, and conditioned garage space that is attached to the home. Unconditioned and unfinished areas in attics and attached garages are excluded. The square footage for some housing units was calculated based on measurements taken by the interviewer. For households responding without the presence of an interviewer, square footage was imputed based on characteristics of the housing unit. See 2015 RECS Square Footage Methodology for full details about data collection and processing.

Q = Data withheld because either the Relative Standard Error (RSE) was greater than 50% or fewer than 10 cases responded.

N = No cases responded.

Notes: Because of rounding, data may not sum to totals. See RECS Terminology for definition of terms used in these tables.

Source: U.S. Energy Information Administration, Office of Energy Consumption and Efficiency Statistics, Forms EIA-457A, C, D, E, F, G of the 2015 Residential Energy Consumption Survey.

Table CE5.3a Detailed household site electricity end-use consumption, part 1—averages, 2015

Average site electricity consumption¹
(million Btu per household using the end use)

	Space heating ²	Air handlers for heating	Air conditioning	Air handlers for cooling	Evaporative coolers	Ceiling fans	Dehumidifiers	Humidifiers	Water heating	Clothes washers	Clothes dryers	Lighting
All homes	11.063	0.762	7.112	0.444	4.098	0.973	3.243	1.115	10.714	0.203	2.647	3.770

¹Electricity consumption from on-site solar photovoltaic generation (i.e., solar panels) is included. Small amounts of standby power for devices that some households have but do not use (e.g., dishwasher) are not included.

²Includes main (primary) and secondary space heating.

³Housing units are classified using criteria created by the U.S. Census Bureau based on 2010 Census data. Urbanized areas are densely settled groupings of blocks or tracts with 50,000 or more people. Urban clusters have at least 2,500 but less than 50,000 people. All other areas are rural.

⁴These climate regions were created by the Building America program, sponsored by the U.S. Department of Energy's Office of Energy Efficiency and Renewable Energy (EERE).

⁵Rented includes households that occupy their primary housing units without paying rent.

⁶Total square footage includes all basements, finished or conditioned (heated or cooled) areas of attics, and conditioned garage space that is attached to the home. Unconditioned and unfinished areas in attics and attached garages are excluded. The square footage for some housing units was calculated based on measurements taken by the interviewer. For households responding without the presence of an interviewer, square footage was imputed based on characteristics of the housing unit. See 2015 RECS Square Footage Methodology for full details about data collection and processing.

Q = Data withheld because either the Relative Standard Error (RSE) was greater than 50% or fewer than 10 cases responded.

N = No cases responded.

Notes: Because of rounding, data may not sum to totals. See RECS Terminology for definition of terms used in these tables.
