

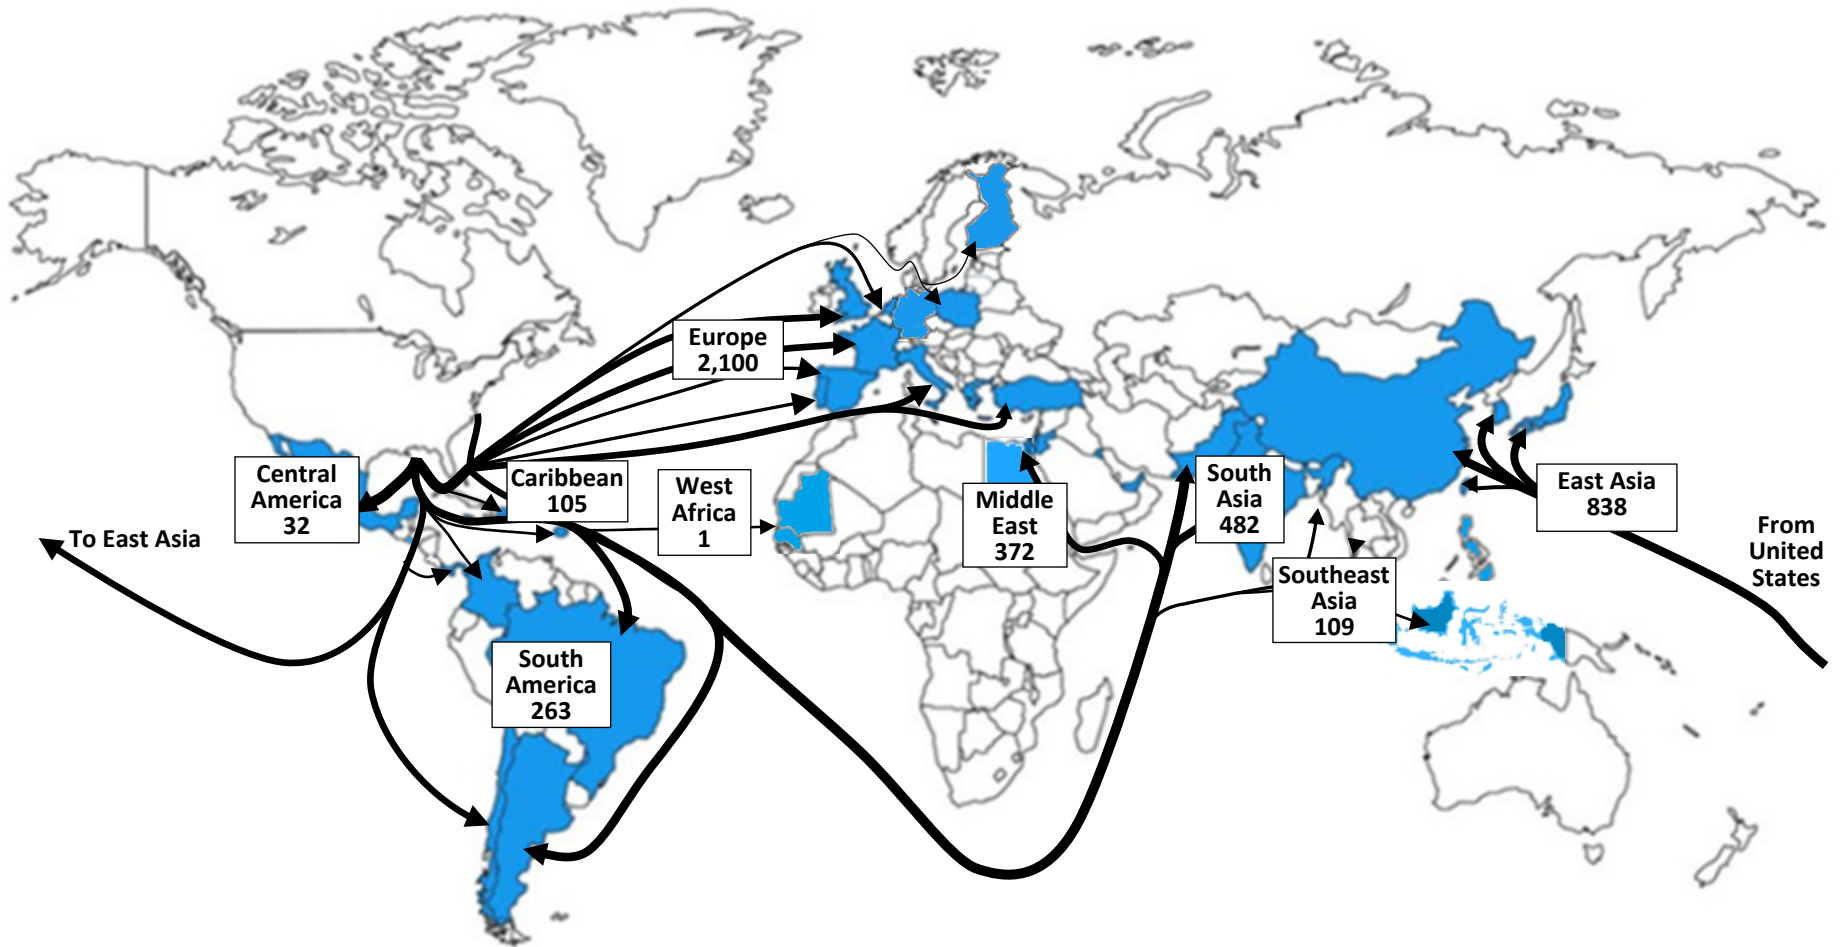

Figure 10. Flow of liquefied natural gas (LNG) exports, 2024
billion cubic feet

Source: Map by the U.S. Energy Information Administration, based on data from the Office of Fossil Energy; U.S. Department of Energy, *Natural Gas Imports and Exports*.
Note: This map shows LNG exports that were shipped by vessel during 2024. The United States also shipped LNG by truck; these trucked volumes were: 85 million cubic feet (Mcf) to Canada and 113 Mcf to Mexico. Arrows indicate origin and destination and may not reflect actual shipping routes taken. Thickness of arrows is not accurately proportional to volumes of deliveries. The countries that receive LNG exports are grouped as follows: Central America (El Salvador, Mexico, and Panama); Caribbean (Antigua and Barbuda, Bahamas, Barbados, Dominican Republic, Haiti, and Jamaica); South America (Argentina, Brazil, Chile, and Colombia); Europe (Belgium, Croatia, Finland, France, Germany, Greece, Italy, Lithuania, Malta, Netherlands, Poland, Portugal, Spain, and United Kingdom); West Africa (Mauritania and Senegal); Middle East (Egypt, Kuwait and Turkiye); South Asia (India, Pakistan, Taiwan, and Thailand); Southeast Asia (Bangladesh, Indonesia, Philippines, and Singapore); and East Asia (China, Japan, and South Korea).
