

Emissions

OECD and non-OECD energy-related carbon dioxide emissions

Energy-related carbon dioxide emissions

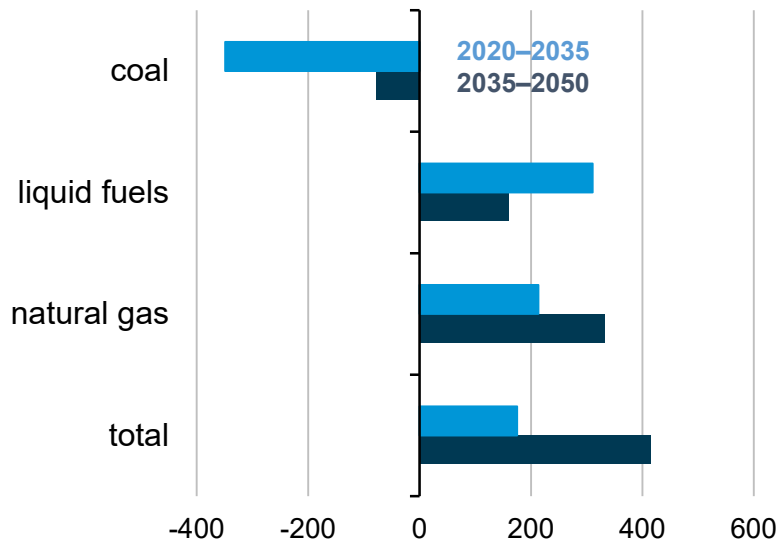

billion metric tons

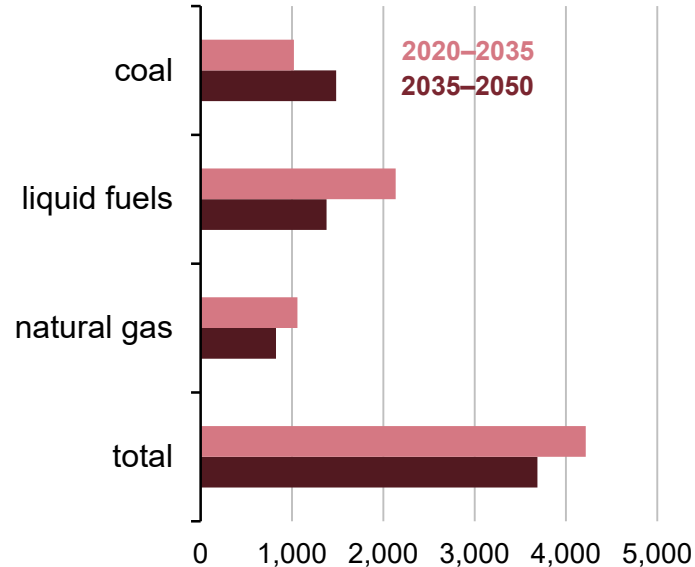

Net change in OECD and non-OECD energy-related carbon dioxide emissions by fossil fuel source

Net change in carbon dioxide emissions, OECD
million metric tons

Net change in carbon dioxide emissions, non-OECD
million metric tons

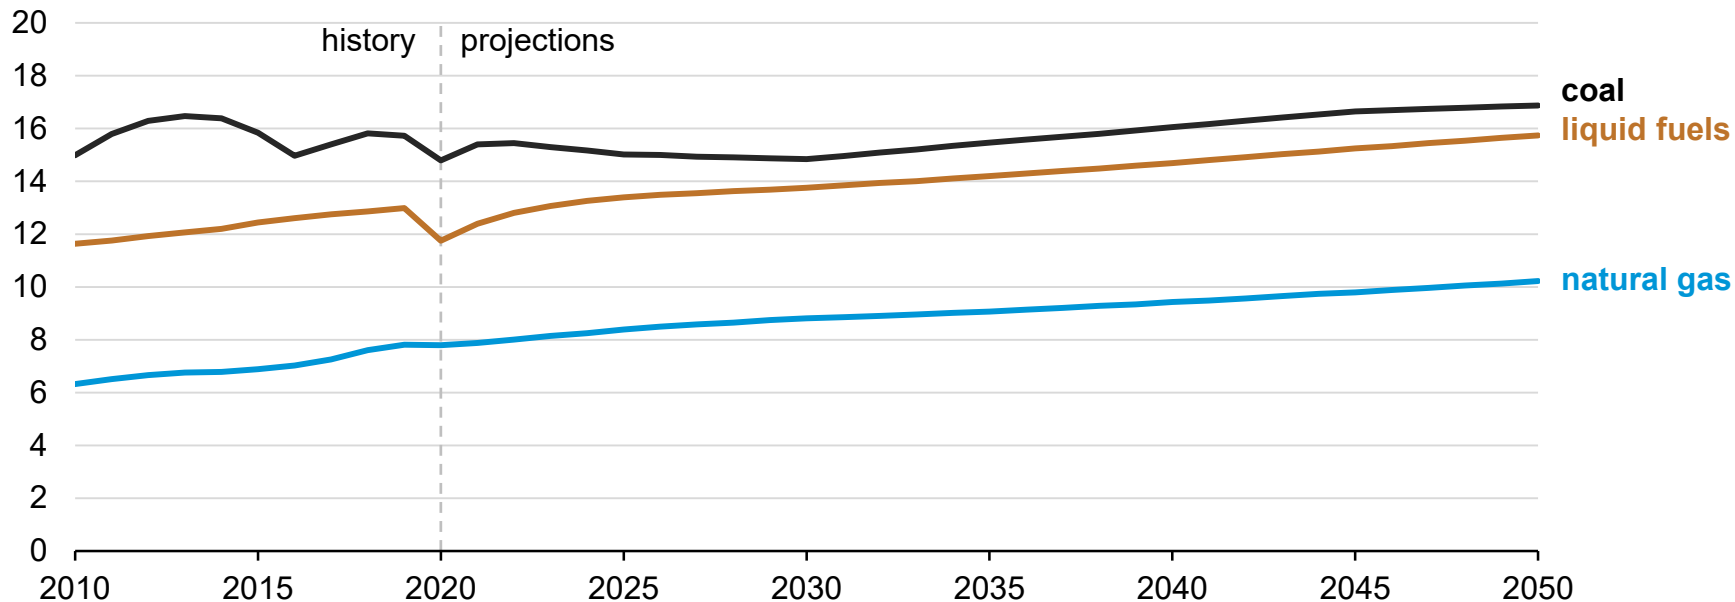

World energy-related carbon dioxide emissions by fuel type

Energy-related carbon dioxide emissions

billion metric tons

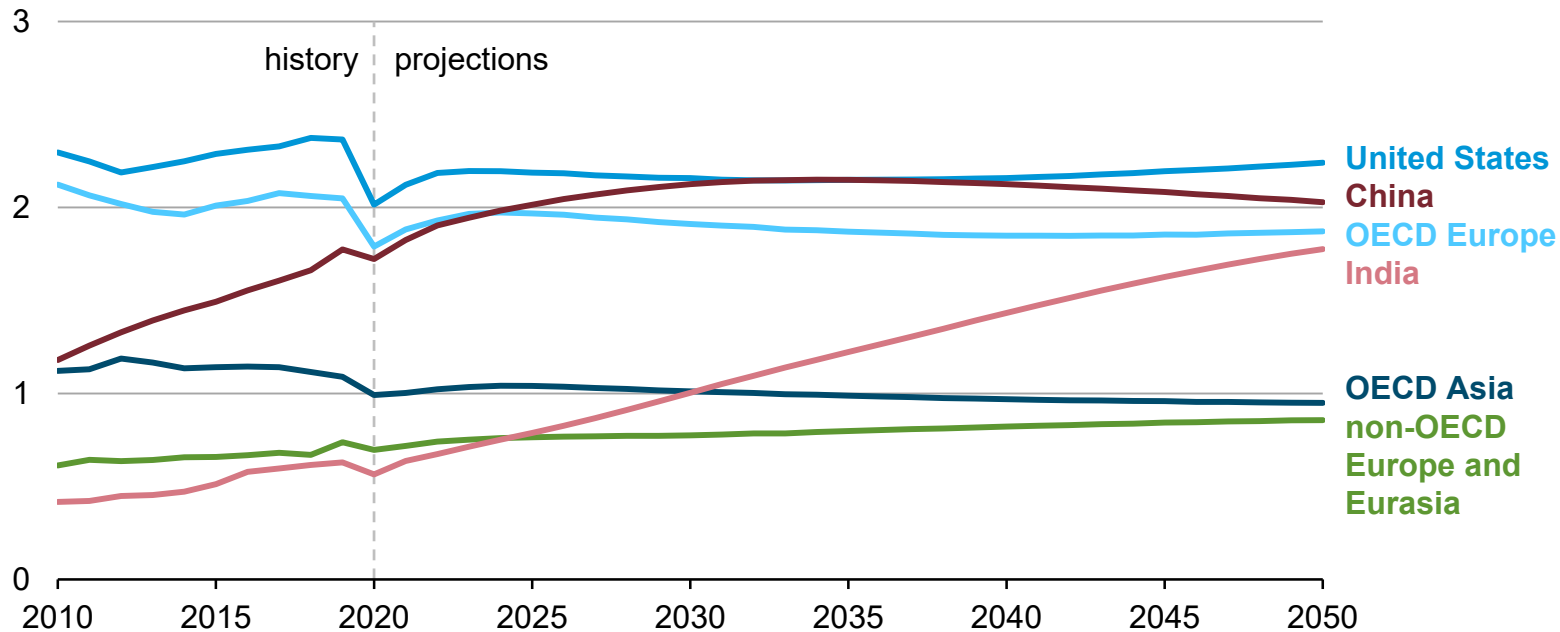

Petroleum liquids carbon dioxide emissions by region

Liquid fuels-related carbon dioxide emissions for select regions

billion metric tons

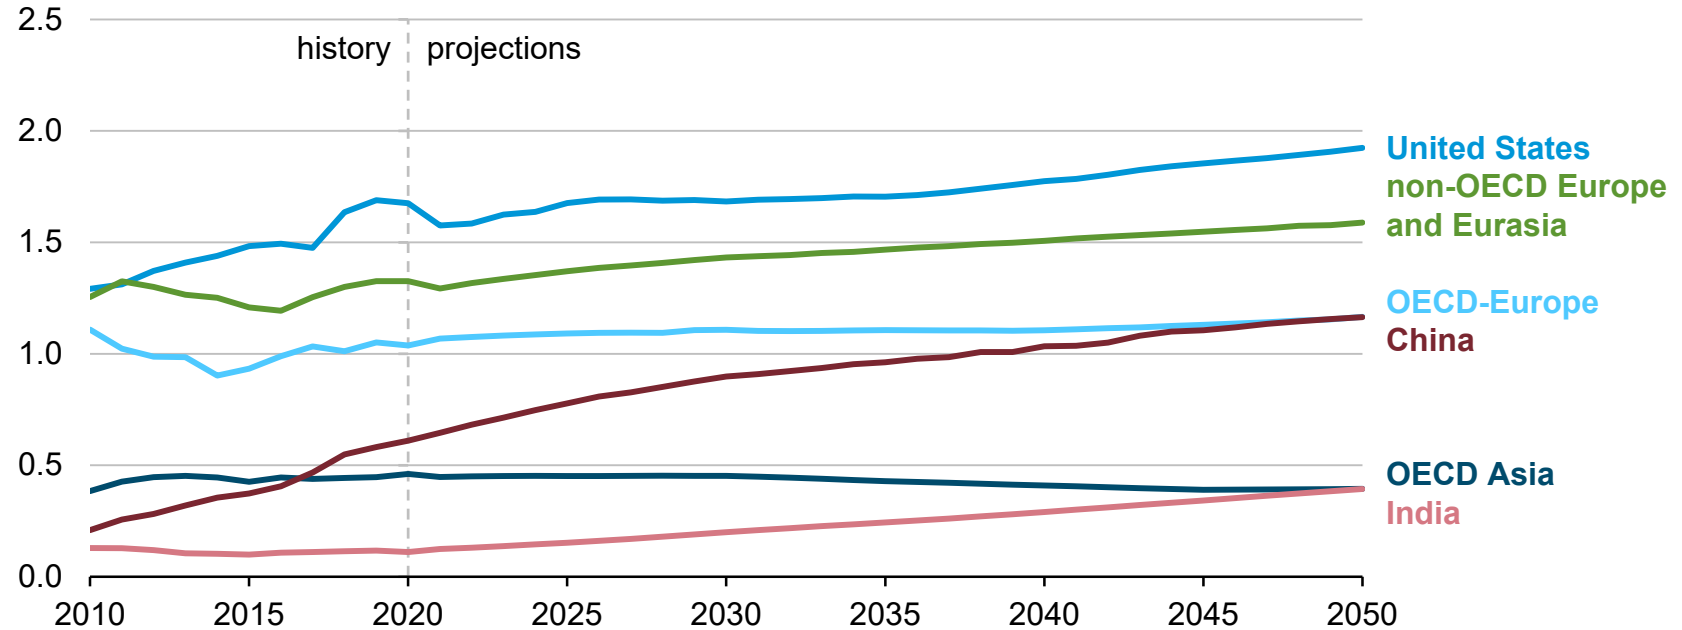

Natural gas carbon dioxide emissions by region

Natural gas-related carbon dioxide emissions for select regions

billion metric tons

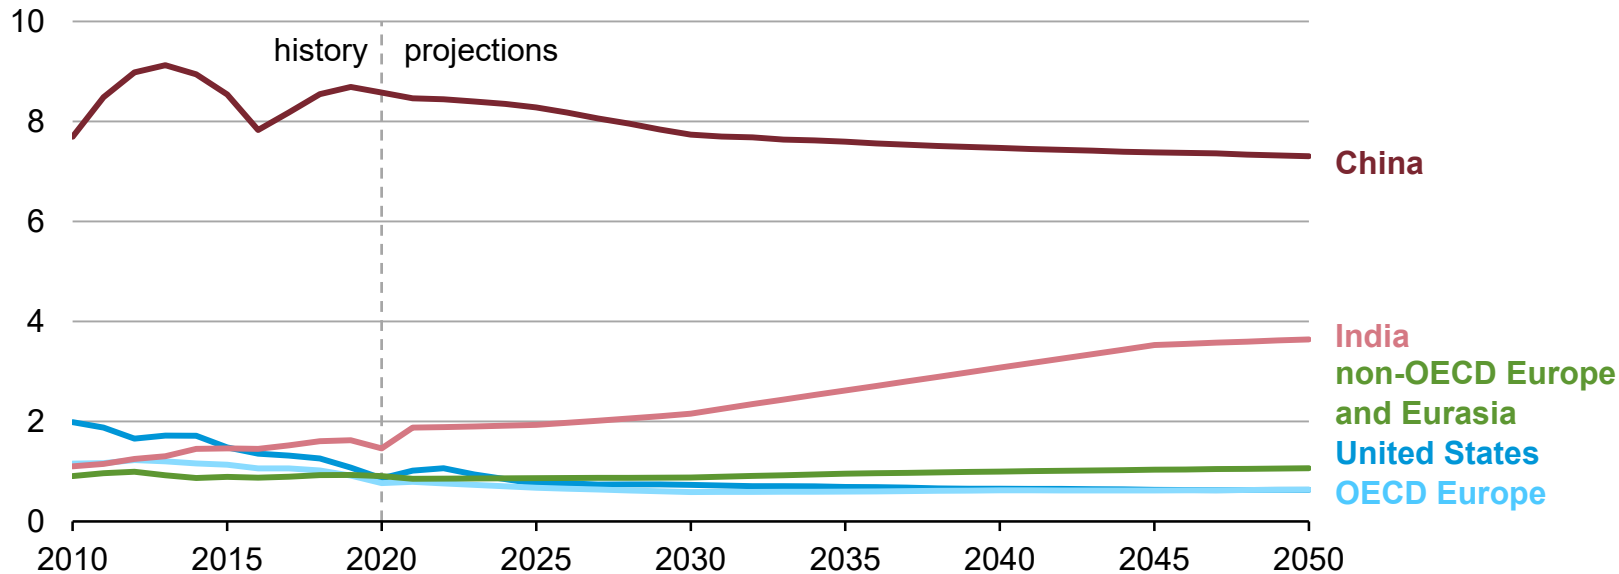

Coal carbon dioxide emissions by region

Coal-related carbon dioxide emissions for selected countries/regions

billion metric tons

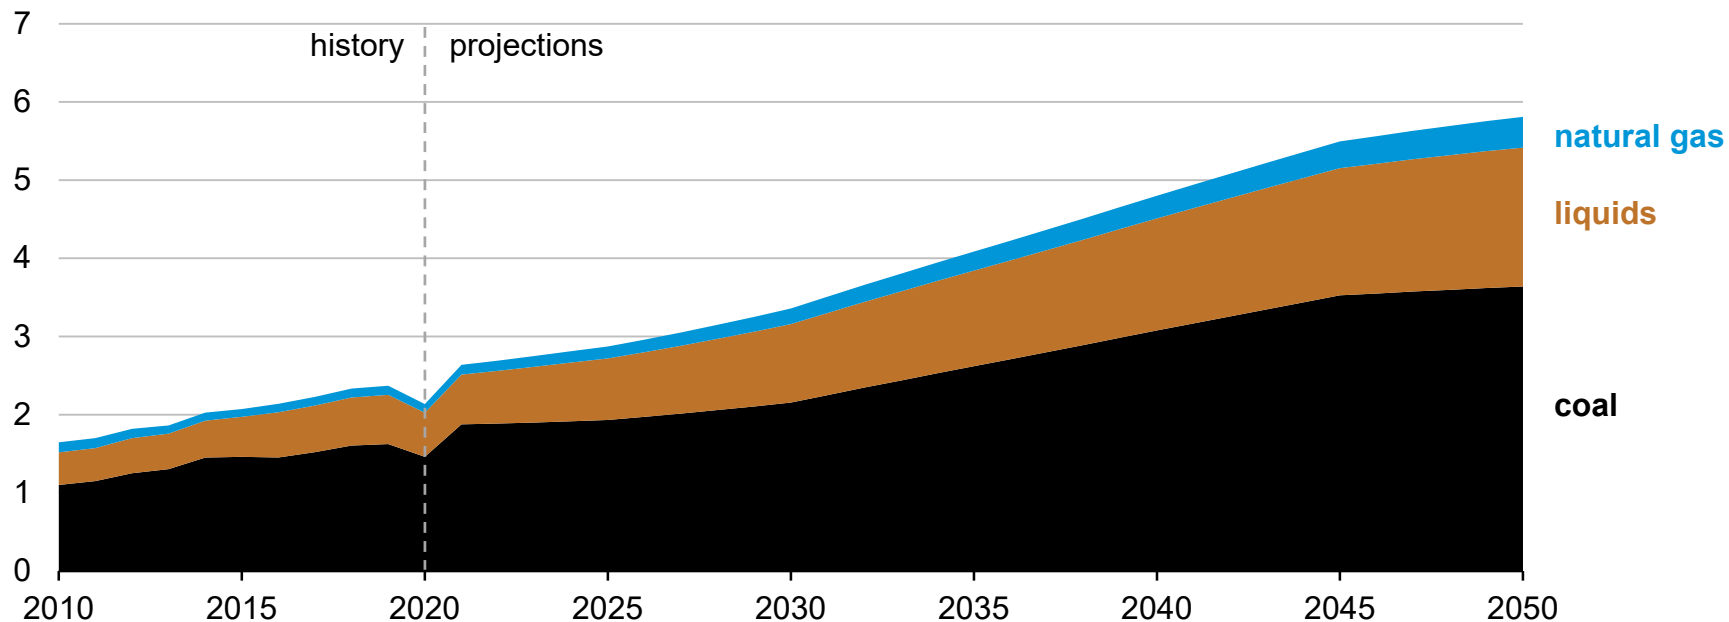

Energy-related carbon dioxide emissions in India by fossil fuel source

Energy-related carbon dioxide emissions by fuel type, India

billion metric tons

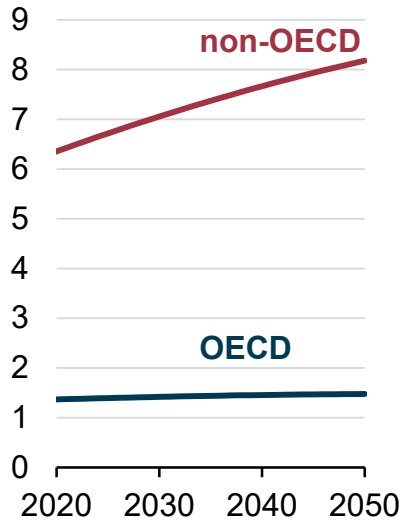

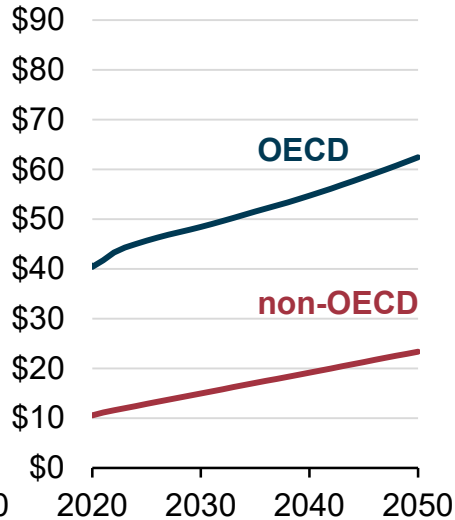

OECD and non-OECD Kaya identity components

Kaya identity components

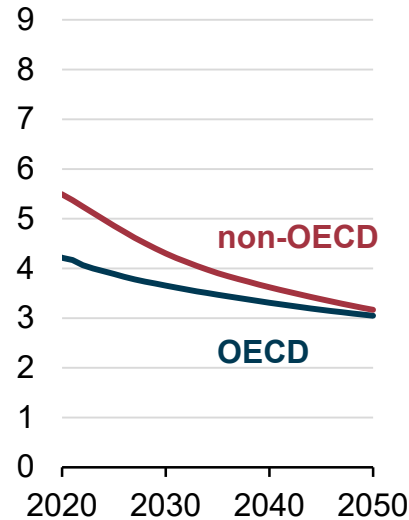

Population
billion people

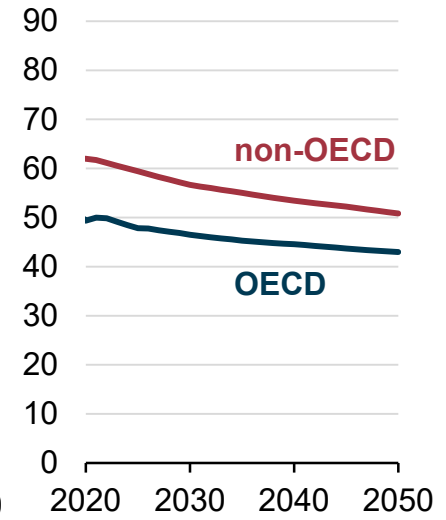

Per capita GDP
thousand dollars per person

Energy intensity
thousand British thermal units per dollar

Carbon intensity
metric tons CO₂ per billion British thermal units

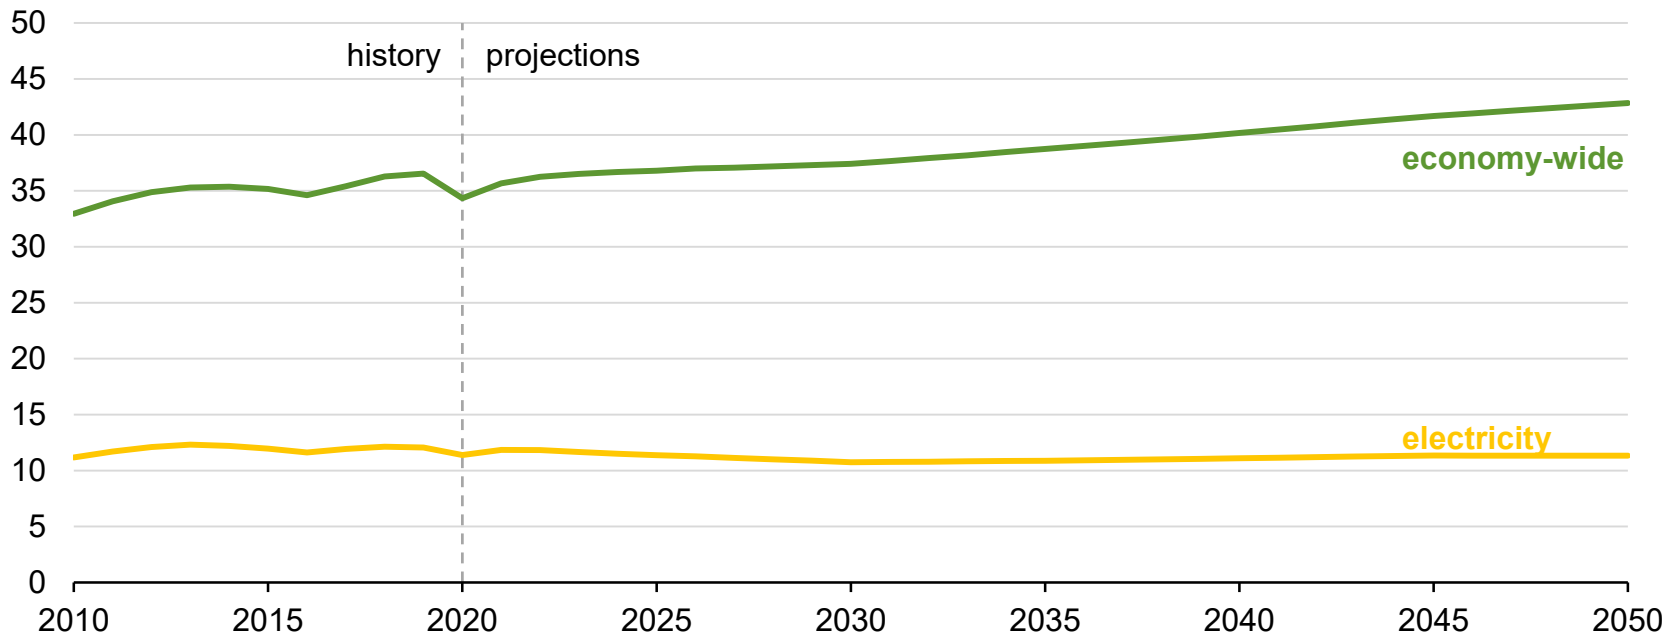

World energy-related and electricity-related carbon dioxide emissions

World carbon dioxide emissions

billion metric tons

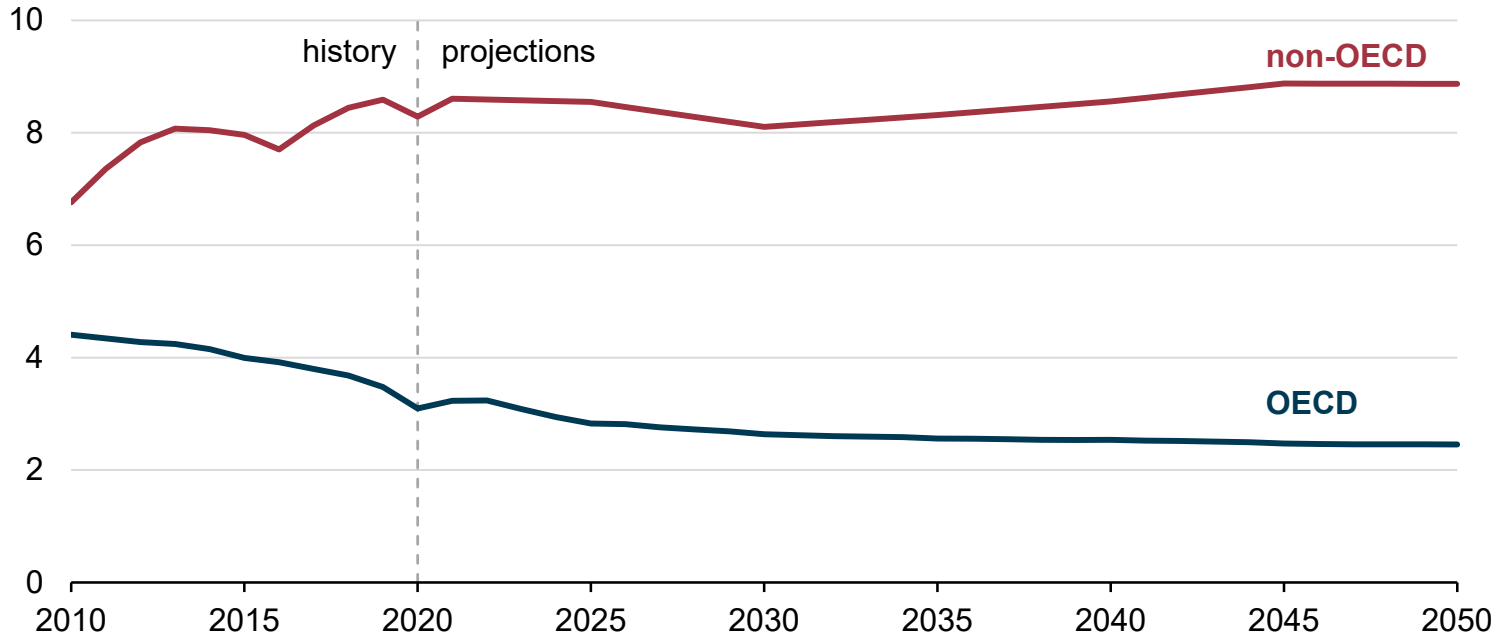

Carbon dioxide emissions from electricity generation

Electricity carbon dioxide emissions, OECD versus non-OECD

billion metric tons

OECD and non-OECD carbon dioxide intensity of electricity

Electricity carbon dioxide emissions intensity

million metric tons CO₂ per billion kilowatthour
