a/ Other liquids includes natural gas plant liquids, liquids from renewable sources (biofuels, including ethanol, biodiesel, and biomass-to-liquids [BTL], liquids from natural gas (gas-to-liquids [GTL]), liquids from coal (coal-to-liquids [CTL]), and liquids from kerogen (oil shale).

b/ OPEC = Organization of Petroleum Exporting Countries. Equatorial Guinea joined OPEC on 2017, but this is not reflected in the IEO2017 projections.

Equatorial Guinea is reported as part of non-OPEC, non-OECD Africa.

c/ Liquids from renewable sources (biofuels) include ethanol, biodiesel, and biomass-to-liquids [BTL]. All volumes, including ethanol, are reported on a volume basis. China statistics include methanol volumes.

d/ Alcohol data from China includes methanol.

Note: Totals may not equal sum of components due to independent rounding.

a/ Other liquids includes natural gas plant liquids, liquids from renewable sources (biofuels, including ethanol, biodiesel, and biomass-to-liquids [BTL], liquids from natural gas (gas-to-liquids [GTL]), liquids from coal (coal-to-liquids [CTL]), and liquids from kerogen (oil shale).

b/ OPEC = Organization of Petroleum Exporting Countries. Equatorial Guinea joined OPEC on 2017, but this is not reflected in the IEO2017 projections.

Equatorial Guinea is reported as part of non-OPEC, non-OECD Africa.

c/ Liquids from renewable sources (biofuels) include ethanol, biodiesel, and biomass-to-liquids [BTL]. All volumes, including ethanol, are reported on a volume basis. China statistics include methanol volumes.

d/ Alcohol data from China includes methanol.

Note: Totals may not equal sum of components due to independent rounding.
