Niobrara Region

Drilling Productivity Report

June 2018

- Monthly additions from one average rig
- Projected production through July

Niobrara Region

- New-well oil production per rig (June 2018: 1,186 barrels/day)
- New-well gas production per rig (June 2018: 4,510 thousand cubic feet/day)

- Legacy oil production change (2009-2018)
- Legacy gas production change (2009-2018)

- Indicated change in oil production (Jul vs. Jun)
- Indicated change in natural gas production (Jul vs. Jun)

- Oil production (2009-2018)
- Natural gas production (2009-2018)

- Monthly additions from one average rig
- Projected production through July

- Oil +5 barrels/day month over month
- Gas +37 thousand cubic feet/day month over month
