**Permian Region**

### Oil Production

**New-well oil production per rig**

- New-well oil production per rig increased from 2010 to 2019.
- The rig count has also increased over the same period.

**Legacy oil production change**

- Legacy production has decreased from 2010 to 2019.

### Indicated change in oil production (Jul vs. Jun)

- Oil production increased from June to July.
- Production from new wells increased by 318 thousand barrels/day.
- Legacy production decreased by 263 thousand barrels/day.
- Net change increased by 55 thousand barrels/day.

### Natural gas production

**New-well gas production per rig**

- New-well gas production per rig increased from 2010 to 2019.
- The rig count has also increased over the same period.

**Legacy gas production change**

- Legacy production has decreased from 2010 to 2019.

### Indicated change in natural gas production (Jul vs. Jun)

- Natural gas production increased from June to July.
- Production from new wells increased by 607 million cubic feet/day.
- Legacy production decreased by 377 million cubic feet/day.
- Net change increased by 230 million cubic feet/day.

### Additional Data

- **Permian Region Natural gas production**
  - Increased from 2010 to 2019.
  - Production has grown consistently over the years.
- **Permian Region Oil production**
  - Increased from 2010 to 2019.
  - Production has grown consistently over the years.

**Note:**
- Drilling data through May.
- Projected production through July.
