**Notes:** The sum of individual states may not equal total U.S. volumes due to independent rounding. Volumes are rounded to the nearest whole number; a zero may indicate volume of less than 0.5 thousand barrels per day. Previous months' production volumes may have been revised for all states/areas.

**Sources:** Data for 2023 for Arkansas, California, Colorado, Federal Offshore Gulf of Mexico, Kansas, Louisiana, Montana, New Mexico, North Dakota, Ohio, Oklahoma, Pennsylvania, Texas, Utah, West Virginia, and Wyoming are estimated from data collected on the Form EIA-914, *Monthly Crude Oil and Lease Condensate, and Natural Gas Production Report*. Data for 2017-2022 (all states) and 2023 for states/areas not individually reported on the EIA-914 (Alabama, Alaska, Arizona, Federal Offshore Pacific, Florida, Idaho, Illinois, Indiana, Kentucky, Michigan, Mississippi, Missouri, Nebraska, Nevada, New York, South Dakota, Tennessee, and Virginia) are from EIA estimates published in the *Petroleum Supply Annual* and *Petroleum Supply Monthly* reports, based on crude oil production data from state government agencies and the U.S. Department of the Interior, Bureau of Safety and Environmental Enforcement (and predecessor agencies), Enverus, IHS Markit, and first purchase data reported on Form EIA-182, *Domestic Crude Oil First Purchase Report*.
