</tbody>
</table>

1Biodiesel primarily derived from soybean oil and ethanol primarily derived from corn.
2Includes supplemental gaseous fuels.
3Petroleum products supplied, including natural gas plant liquids and crude oil burned as fuel.
4Biomass includes: biofuels, waste (landfill gas, MSW biogenic, and other biomass), wood and wood derived fuels.
PV = Photovoltaic.

Notes: Data revisions are discussed in the Highlights section.
Totals may not equal sum of components due to independent rounding.
