^a State motor gasoline prices are the same for the commercial, industrial, and transportation sectors.

^b Due to consumption weighting, U.S. average commercial price is \$32.89 per million Btu, U.S. average industrial price is \$32.87 per million Btu, U.S. average transportation price is \$32.39 per million Btu, and the U.S. average price of all sectors is \$32.41 per million Btu.

Where shown, (s) = Btu value less than 0.05.

Notes: · Motor gasoline estimates include fuel ethanol blended into motor gasoline. · Totals may not equal sum of components due to independent rounding.
