Where shown, — = No consumption and (s) = Expenditure value less than 0.05.

Notes: Hydrocarbon gas liquids include natural gas liquids (ethane, propane, normal butane, isobutane, and natural gasoline) and refinery olefins (ethylene, propylene, butylene, and isobutylene). Propane is consumed by all sectors; all other products are assumed to be

consumed by the industrial sector. • Totals may not equal sum of components due to independent rounding.
