United States	25.15	15.76	10.54	19.10	12.73	10,830.2	2,453.7	28,214.1	133.4	41,631.4

Where shown, — = No consumption and (s) = Expenditure value less than 0.05.

Notes: Hydrocarbon gas liquids include natural gas liquids (ethane, propane, normal butane, isobutane, and natural gasoline) and refinery olefins (ethylene, propylene, butylene, and isobutylene). Propane is consumed by all sectors; all other products are assumed to be

consumed by the industrial sector. • Totals may not equal sum of components due to independent rounding.

Sources: Data sources, estimation procedures, and assumptions are described in the Technical Notes.
