^a Includes refuse recovery.

^b Marketed production, which includes natural gas plant liquids (NGPLs).

^c Includes lease condensate.

^d United States production includes federal offshore production of natural gas in the Gulf of Mexico. Federal offshore production along

the Pacific Coast is included in California.

^e Includes federal offshore production of crude oil in the Gulf of Mexico and along the Pacific coast.

(s) = Less than 0.05 trillion Btu.

Note: Totals may not equal sum of components due to independent rounding.
