Notes:
- Totals may not equal sum of components due to independent rounding.
- Notes: Totals may not equal sum of components due to independent rounding.
- The electric power sector consists of electricity-only and combined-heat-and-power (CHP) plants within the NAICS 22 category whose primary business is to sell electricity, or electricity and heat, to the public.
- Prior to 1981, data include independent power producers.
- Notes: Totals may not equal sum of components due to independent rounding.
- The electric power sector consists of electricity-only and combined-heat-and-power (CHP) plants within the NAICS 22 category whose primary business is to sell electricity, or electricity and heat, to the public.
- Data for 1981 through 2000 include independent power producers.
- The continuity of these data series estimates may be affected by the changing data sources and estimation methodologies. See the Technical Notes for each type of energy.
- All data are available at https://www.eia.gov/state/seds/seds-data-complete.php.
- Notes: Totals may not equal sum of components due to independent rounding.
- For electric sector and electric utilities only. Beginning in 1989, data include independent power producers.
- Notes: Totals may not equal sum of components due to independent rounding.
