EIA-782A Exclusionary List Instructions

The 2022 Exclusionary List has been updated for your use in preparing Form EIA-782A, "Refiners’/Gas Plant Operators’ Monthly Petroleum Product Sales Report."

As required under the "General Instructions" for this form, respondents are to exclude all sales to refiners and gas plant operators represented on the list. When using this list, please note the following:

- Exclude all sales made to companies and their subsidiaries represented on this Exclusionary List, starting with reference month April 2022.
- If sales are made to a company with a name substantially similar to one on this list, it may be assumed that the companies are related and those sales should be excluded. If you have any questions regarding exclusions or potential exclusions, please contact us at 1-855-342-4872.
- Dissimilar names of companies related to those on this list, where known to the U.S. Energy Information Administration, have been added to the list with parenthetical reference to the related company.
- Obsolete company names (names not commonly used by the industry for at least 5 years) have been deleted.
- Companies submitting both Forms EIA-782A and EIA-782C should note that the two lists are different. Please use the appropriate list for each survey.

If you have any questions regarding the use of the EIA-782A Exclusionary List, please contact us at 1-855-342-4872.
