EIA-782C Exclusionary List Instructions

The 2020 Exclusionary List has been updated for your use in preparing Form EIA-782C, "Monthly Report of Prime Supplier Sales of Petroleum Products Sold for Local Consumption." As required under the “General Instructions” for this form, respondents are to exclude sales to all companies and their subsidiaries represented on this Exclusionary List.

The purpose of the EIA-782C survey is to measure sales of selected petroleum products in the states where they are consumed; that is, the survey attempts to estimate demand at the state level. In order to avoid double-counting, the survey has been designed so that respondents, consisting of "prime suppliers," report only sales to local distributors, retailers, and end-users. Therefore, the Exclusionary List includes all other company classes including refiners, gas plant operators, traders, large inter-state distributors, and exporters.

In using the Exclusionary List, please note the following:

- Exclude all sales made to companies and their subsidiaries represented on this Exclusionary List, starting with reference month July 2020.
- If sales are made to a company that you believe should be excluded and is not represented on the Exclusionary List (particularly large spot sales to traders and exporters), please contact our staff at 1-855-342-4872 before excluding those sales. This information is important in maintaining a current list and consistent reporting procedures.
- If sales are made to a company with a name substantially similar to one on this list, it may be assumed that the company is related and sales to it should be excluded. However, if you have any questions regarding specific company names, please contact our staff.
- Dissimilar names of companies related to those on this list, where known to the U.S. Energy Information Administration, have been added to the list with parenthetical reference to the related company.
- **Companies submitting Form EIA-782C and Form EIA-782A should note that the lists are different and the appropriate list should be used for each survey.**
- Obsolete company names (names not commonly used by the industry for at least 5 years) have been deleted.

If you have any questions regarding the use of the EIA-782C Exclusionary List, please contact us at 1-855-342-4872.
