General Information
1. Purpose
The Standard Remittance Advice (RA) form is a mandatory form designed to serve as the source document for entries into the U.S. Department of Energy’s (DOE) accounting records under 42 U.S.C. §10101 data from Purchasers concerning payment of their contribution to the Nuclear Waste Fund (when the fee rate is greater than zero).

On May 12, 2014, in accordance with the provisions of Article VIII.A of the Standard Contract for the Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste (10 CFR 961), DOE provided notice that effective May 16, 2014, the Spent Nuclear Fuel Disposal Fee would be 0.0 mill/kWh (0 M/kWh) of electricity generated and sold (the fee for electricity generated and sold prior to May 16, 2014 was 1.0 M/kWh). DOE requested that the Purchasers (i.e., contract holders) continue to submit Appendix G in accordance with their regular quarterly payment schedule as DOE continues to verify the net electricity generation data reported and estimate the spent nuclear fuel disposal fees that would otherwise accrue from this generation.

2. Who Shall Submit
The RA must be submitted by Purchasers who signed the Standard Contract for Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste.

3. Where to Submit
Purchasers shall forward completed RAs to:
U.S. Department of Energy
Office of Finance and Accounting, CF-11
19901 Germantown Road
Germantown, MD 20874-1290

Request for further information, additional forms, and instructions may be directed in writing to the address above or by telephone to 301-903-9720.

4. When to Submit
For electricity generated on or after April 7, 1983 fees shall be paid quarterly by the Purchaser and must be received by DOE not later than the close of the last business day of the month following the end of each assigned three month period. Payment is by electronic wire transfer or Automated Clearing House (ACH) electronic funds transfer only.

5. Sanctions
The timely submission of the RA by a Purchaser is mandatory. Failure to file may result in late penalty fees as provided by Article VIII C of the Standard Contract for Disposal of Spent Nuclear Fuel and/or High-level Radioactive Waste.

6. Provisions Regarding the Confidentiality of Information
The information reported on Form NWPA-830G will be protected and not disclosed to the public to the extent that it satisfies the criteria for exemption under the Freedom of Information Act (FOIA), 5 U.S.C. §552, DOE regulations, 10 C.F.R. §1004.11, implementing the FOIA, and the Trade Secrets Act, 19 U.S.C. §1905.

The Federal Energy Administration Act requires the U.S. Energy Information Administration (EIA) to provide company-specific data to other federal agencies when requested for official use. The information reported on this form may also be made available, upon request, to another DOE component; to any committee of Congress, the Government Accountability Office, or other federal agencies authorized by law to receive such information. A court of competent jurisdiction may obtain this information in response to an order. The information may be used for any non-statistical purposes such as administrative, regulatory, law enforcement, or adjudicatory purposes.

EIA has an agreement to provide company-specific information to the DOE Office of Standard Contract Management. The data are used for administrative, regulatory, and adjudicatory purposes only. Disclosure limitation procedures are not applied to the statistical data derived from this survey's information. The agreement requires that the information is protected and not disclosed to the public as set forth above.
