institutional contracts and contract data relating to campus banking agreements. The Department has created a Cash Management Contract electronic form to allow institutions to report their contract and contract URL to the Department. The Department has also created a central repository for the information provided by the institution that includes the contract data and the web addresses that is publicly available for research and comparison purposes. Both of these are located on studentaid.gov. The database allows interested parties, such as students, families, press, institutions, and researchers to easily access and compare banking agreements available at different institutions.

Dated: November 25, 2019.

Kate Mullan,
PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer.

FOR FURTHER INFORMATION CONTACT: Sara Hoff, (202) 586–1242. The forms and instructions are available on EIA’s website at http://www.eia.gov/survey/changes/coal/2020/.

SUPPLEMENTARY INFORMATION:
This information collection request contains:
(1) OMB Control Number: 1905–0167; (2) Information Collection Request Title: Coal Markets Reporting System; (3) Type of Request: Three-year extension without changes; (4) Purpose: The Coal Markets Reporting System (CMRS) program collects, evaluates, analyzes, and disseminates information on coal production, sales, technology, reserves, and related economic and statistical information. This information is used to assess the adequacy of coal and other energy resources to meet near and longer term domestic demands and to promote sound policymaking, efficient markets, and public understanding of energy and its interaction with the economy and the environment. Form EIA–3 collects quarterly data on the use of coal at U.S. manufacturing plants, coal transformation/processing plants, coke plants, and commercial and institutional users of coal. Form EIA–7A collects characteristics of coals mined, recoverable reserves, production capacity, coal sales and revenue, stocks held at mines, and the disposition of the coal mined. For coal preparation, information collected includes operations, locations, production capacity, disposition, and volume of coal prepared. Form EIA–8A collects data on coal stocks by state location, exported coal by origin state, and export revenue of coal sold during the reporting year. Form EIA–6 Emergency Coal Supply Survey and Form EIA–20 Emergency Weekly Coal Monitoring Survey for Coal Burning Power Producers are standby surveys used during periods of coal supply and transportation disruptions. In the event of a supply or transportation disruption, these two standby surveys activate and operate weekly over a ten week period. Once activated, Form EIA–6 collects weekly coal supply and stocks data from U.S. coal mining companies. Data are aggregated and reported at the state level. During disruptive events, Form EIA–20 collects available coal-fired capacity, generation, consumption, and stocks from coal-fired electric power generators.

The CMRS collects coal market data and information pertaining to the quality of the coal, including heat content, ash content, sulfur content and contents of mercury and chlorides. Aggregates of this collection are used to support analysis on the effects of public policy on the coal industry, economic modeling, forecasting, coal supply and demand studies, and in guiding research and development programs. The data are included in EIA publications, such as the Monthly Energy Review, Quarterly Coal Report, Quarterly Coal Distribution Report, Annual Coal Report, and Annual Coal Distribution Report. EIA also uses the data in short-term and long-term forecast models such as the Short-Term Integrated Forecasting System (STIFS) and the National Energy Modeling System (NEMS) Coal Market Module. The forecast data also appear in the Short-Term Energy Outlook and the Annual Energy Outlook publications.

(5) Estimated Number of Survey Respondents: 1,164.
  • Form EIA–3 has 397 respondents;
  • Form EIA–7A has 692 respondents;
  • Form EIA–8A has 48 respondents;
  • Form EIA–6 (standby) has 15 respondents;
  • Form EIA–20 (standby) has 12 respondents.

(6) Annual Estimated Number of Total Responses: 2,598.

(7) Annual Estimated Number of Burden Hours: 4,417.

Comments are invited on whether or not: (a) The proposed collection of information is necessary for the proper performance of agency functions, including whether the information will have a practical utility; (b) EIA’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used, is accurate; (c) EIA can improve the quality, utility, and clarity of the information it will collect; and (d) EIA can minimize the burden of the collection of information on respondents, such as automated collection techniques or other forms of information technology.
ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 59, Subpart C] Renewal

AGENCY: Environmental Protection Agency (EPA)

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), “National Volatile Organic Compound Emission Standards for Consumer Products (Renewal).” EPA ICR No. 1764.08, OMB Control No. 2060–0348, to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA). Before doing so, the EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through August 31, 2020. An agency may not conduct or sponsoring and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before January 31, 2020.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA–HQ–OAR–2007–0563 online using https://www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

The EPA’s policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, language whose disclosure is restricted by statute.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at https://www.regulations.gov or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about the EPA’s public docket, visit https://www.epa.gov/dockets.

Pursuant to section 3506(c)(2)(A) of the PRA, the EPA is soliciting comments and information to enable it to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (2) evaluate the accuracy of the Agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) enhance the quality, utility, and clarity of the information to be collected; and (4) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, the EPA will issue another Federal Register document to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: The information collection includes initial reports and periodic recordkeeping necessary for the EPA to ensure compliance with Federal standards for volatile organic compounds in consumer products. Respondents are manufacturers, distributors, and importers of consumer products. All information submitted to the EPA for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in 40 CFR part 2, subpart B, Confidentiality of Business Information.

Form Numbers: None.

Respondents/affected entities: Manufacturers, distributors, and importers of consumer products.

Respondent’s obligation to respond: Responses to the collection are mandatory under 40 CFR part 59, subpart C, National Volatile Organic Compound Emission Standards for Consumer Products.

Estimated number of respondents: 300 (total).

Frequency of response: On occasion. Total estimated burden: 16,126 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: $1,765,427 (per year), includes $0 annualized capital or operation and maintenance costs.

Changes in Estimates: There is no change in the burden estimate currently approved by OMB.

Dated: November 22, 2019.

Penny Lassiter,
Director, Sector Policies and Programs Division.

ENVIRONMENTAL PROTECTION AGENCY

FRL–10002–73–OMS

Senior Executive Service Performance Review Board; Membership

AGENCY: U.S. Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Notice is hereby given of the membership of the U.S. Environmental Protection Agency (EPA) Performance Review Board for 2019.

SUPPLEMENTARY INFORMATION: Section 4314(c)(1) through (5) of Title 5, U.S.C., requires each agency to establish in accordance with regulations prescribed by the Office of Personnel Management, one or more SES performance review boards. This board shall review and evaluate the initial appraisal of a senior executive’s performance by the
