

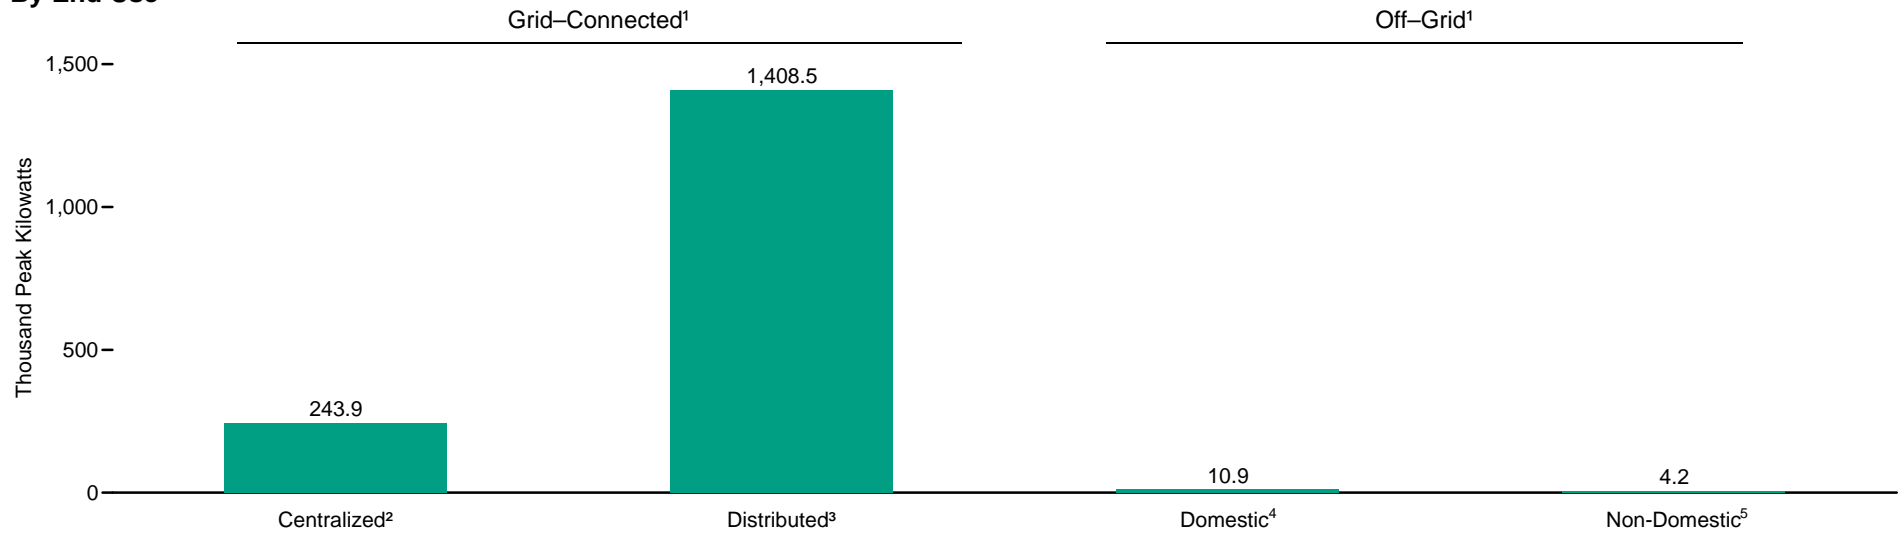

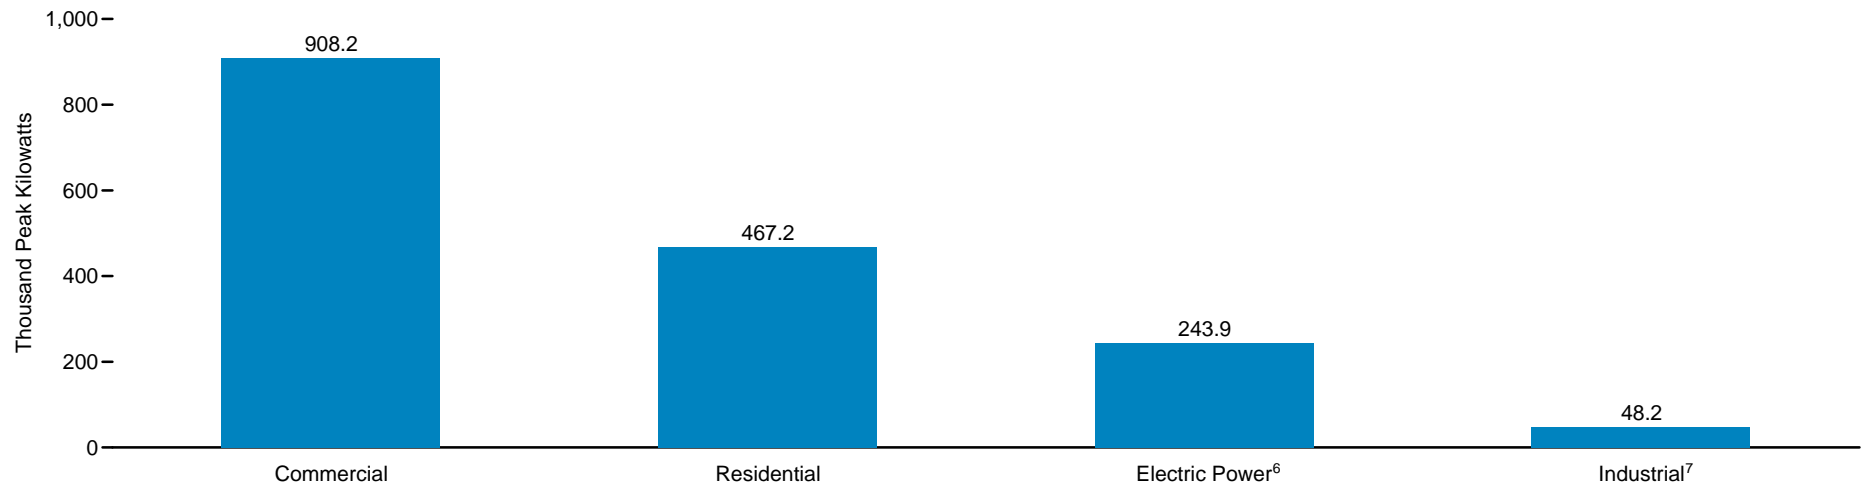

Figure 10.9 U.S. Shipments of Photovoltaic Modules Only by Sector and End Use, 2010

By End Use

By Sector

¹ See "Electric Power Grid" in Glossary.

² Photovoltaic modules that are connected to the electric power grid, and whose output is fed directly into the grid.

³ Photovoltaic modules that are connected to the electric power grid, and whose output is consumed mainly onsite.

⁴ Photovoltaic modules that are not connected to the electric power grid, and that are used to provide electric power to remote households or communities.

⁵ Photovoltaic modules that are not connected to the electric power grid, and that are used to provide electric power for a variety of non-domestic applications.

⁶ Electric utilities and independent power producers.

⁷ Industrial sector only; independent power producers are included in "Electric Power."
