

U.S. petroleum flow, 2018

million barrels per day

¹ Unfinished oils, hydrogen/oxygenates/renewables/other hydrocarbons, and motor gasoline and aviation gasoline blending components.
² Renewable fuels and oxygenate plant net production (1.246), net imports (0.758) and adjustments (0.026) minus stock change (0.026) and product supplied (<0.001).
³ Finished petroleum products and hydrocarbon gas liquids.
⁴ Natural gas liquids.
⁵ Field production (4.349) and renewable fuels and oxygenate plant net production (-0.021) minus refinery and blender net inputs (0.575).

⁶ Petroleum products supplied.
 (s)=Less than 0.005 and greater than -0.005.
 Notes: • Data are preliminary. • Values are derived from source data prior to rounding for publication. • Totals may not equal sum of components due to independent rounding.
