### Notes:
- Most data are estimates. See Tables 10.1-10.2c for notes on series components and estimation; and see Note: "Renewable Energy Production and Consumption," at end of Section 10.
- Beginning in 1989, includes waste coal supplied. Beginning in 2001, also includes a small amount of refuse recovery. See Note: Table 6.1.
- Includes lease condensate.
- Natural gas processing plant production of natural gas liquids (ethane, propane, normal butane, isobutane, and natural gasoline). Through 1980, also includes natural gas processing plant production of finished petroleum products (aviation gasoline, distillate fuel oil, jet fuel, kerosene, motor gasol
- t, napthenics, and miscellaneous products).
- Conventional hydroelectric power.
- Re=Revised. E=Estimated. N/A=Not available. (s)=Less than 0.5 trillion Btu.
