Figure 1.3 Primary Energy Consumption
(Quadrillion Btu)

By Source, [a] 1949–2021

[Diagram showing energy consumption by source from 1950 to 2020, with lines for Coal, Natural Gas, Nuclear Electric Power, Petroleum, and Renewable Energy.]

By Source, [a] Monthly

[Diagram showing energy consumption by source from January to December, for years 2020, 2021, and 2022, with lines for Coal, Natural Gas, Nuclear Electric Power, Petroleum, and Renewable Energy.]

Total, January–May

By Source, [a] May 2022

[a] Small quantities of net imports of coal coke and electricity are not shown.
