</table>

Notes:
- Data are for fuels consumed to produce electricity and useful thermal output.
- The electric power sector comprises electricity-only and combined-heat-and-power (CHP) plants within the NAICS 22 category whose primary business is to sell electricity, or electricity and heat, to the public. See Note 3, "Energy Consumption Data and Surveys," at end of section. Totals may not equal sum of components due to independent rounding. Geographic coverage is the 50 states and the District of Columbia.
