Notes:
• See "Organization of the Petroleum Exporting Countries (OPEC)" in Glossary.
• The country of origin for petroleum products may not be the country of origin for the crude oil from which the products were produced. For example, refined products imported from West European refining areas may have been produced from Middle East crude oil.
• Includes imports for the Strategic Petroleum Reserve, which began in October 1977.
• Totals may not equal sum of components due to independent rounding.
• U.S. geographic coverage is the 50 states and the District of Columbia.
