</table>

Notes:
- R=Revised.
- (s)=Less than 0.5 trillion Btu and greater than -0.5 trillion Btu.
- Data are estimates.
- Totals may not equal sum of components due to independent rounding.
- For total heat content of petroleum consumption by all sectors, see data for heat content of petroleum products supplied in Table 3.6. Petroleum products supplied is an approximation of petroleum consumption and is synonymous with the term “petroleum consumption” in Tables 3.7a–3.7d.
