#### Notes:
- a For total underground storage capacity at the end of each calendar year, see Note 4, “Natural Gas Storage,” at end of section.
- b For 1980–2018 data, differences from those shown on Table 4.1, which includes liquefied natural gas storage for that period.
- c Positive numbers indicate that withdrawals are greater than injections. Net withdrawals or injections may not equal the difference between applicable ending stocks. See Note 4, “Natural Gas Storage,” at end of section.
