### Notes
- Prices are not adjusted for inflation. See “Nominal Dollars” in Glossary.
- See Note 8, “Natural Gas,” at end of section.
- Commercial sector, includes combined-heat-and-power (CHP) and commercial electricity-only plants. See Note 2, “Classification of Power Plants Into Energy-Use Sectors,” at end of Section 7.
- The electric power sector comprises electricity-only and combined-heat-and-power (CHP) plants within the NAICs 22 category whose primary business is to sell electricity, or electricity heat, to the public.
- The wellhead annual and year-to-date prices are volume-weighted averages of the monthly prices.
- Geographical coverage is the 50 states and the District of Columbia.
