\(^{a}\) Prices are not adjusted for inflation. See \"Nominal Dollars\" in Glossary.  
\(^{b}\) See Note 5, \"Motor Gasoline Prices,\" at end of section.  

Notes: • Sales for resale are those made to purchasers other than ultimate consumers. Sales to end users are shown in Table 9.7; they are sales made directly to ultimate consumers, including bulk consumers (such as agriculture, industry, and electric utilities) and residential and commercial consumers. • Values for the current month are preliminary. • Through 1982, prices are U.S. Energy Information Administration (EIA) estimates. See Note 6, \"Historical Petroleum Prices,\" at end of section. • Geographic coverage is the 50 states and the District of Columbia.
