</table>

#### Notes:
- Prices are not adjusted for inflation. See “Nominal Dollars” in Glossary.
- Prices are for resale and are those made to purchasers other than ultimate consumers. Sales to end users are shown in Table 9.7; they are sales made directly to ultimate consumers, including bulk consumers (such as agriculture, industry, and electric utilities) and residential and commercial consumers.
- Notes: See Note 6, “Historical Petroleum Prices,” at end of section.
- Geographic coverage is the 50 states and the District of Columbia.
- Prices are for resale and are those made to purchasers other than ultimate consumers. Sales to end users are shown in Table 9.7; they are sales made directly to ultimate consumers, including bulk consumers (such as agriculture, industry, and electric utilities) and residential and commercial consumers.
- Notes: See Note 6, “Historical Petroleum Prices,” at end of section.

This table has not been updated due to the data are not available in Petroleum Marketing Monthly.
