

Table 7. Uranium purchased by owners and operators of U.S. civilian nuclear power reactors by contract type and material type, 2023 deliveries

thousand pounds U₃O₈ equivalent; dollars per pound U₃O₈ equivalent

Material type	Spot contracts ¹		Long-term contracts ²		Total	
	Quantity with reported price	Weighted-average price	Quantity with reported price	Weighted-average price	Quantity with reported price	Weighted-average price
U ₃ O ₈	5,260	48.51	24,649	43.99	29,909	44.79
Natural UF ₆	W	W	W	W	11,497	50.12
Enriched UF ₆	W	W	W	W	10,219	33.80
Total	7,736	51.64	43,889	42.42	51,625	43.80

¹ A one-time delivery (usually) of the entire contract to occur within one year of contract execution (signed date).

² One or more deliveries to occur after a year following contract execution (signed date).

Notes: Totals may not equal sum of components because of independent rounding. Weighted-average prices are not adjusted for inflation. For natural uranium, the quantity reported is the U₃O₈ equivalent uranium component quantity, specified in the contract for each delivery of natural UF₆ and enriched UF₆. The natural UF₆ and enriched UF₆ weighted-average price represent only the U₃O₈ equivalent uranium-component price specified in the contract for each delivery of natural UF₆ and enriched UF₆, it does not include the conversion service and enrichment service components.
